Selective Service Information Sheet

Students must be registered with the Selective Service System (if required to register) before they can receive financial aid. In general, males between the ages of 18 and 26 are required to register with the Selective Service System. Each year the Department of Education matches the names of student aid applicants with the Selective Service records. At this time, the Department is unable to confirm your status with Selective Service.

Instructions:

In order to continue processing your financial aid award, you must resolve your status with the Selective Service Office. Please follow the instructions checked below:

- The Department of Education was unable to confirm or complete your registration with Selective Service. To register, you must obtain and complete a Selective Service registration form available from your local post office, or register through the Internet at <http://www.sss.gov>.
- The Selective Service has not confirmed your registration or exemption status. You must contact Selective Service at 1 (847) 688-3117 or on the Internet at <http://www.sss.gov> to resolve any problems regarding your registration status. **Note:** If you believe that you are already registered, exempt from registration, or not required to register, you must also contact the Selective Service.
- The Department of Education was unable to confirm your status. You must contact the Selective Service at 1 (847) 688-3117 or on the Internet at <http://www.sss.gov> to request a Status Information Letter. This action is necessary if you failed to register before your 26th birthday.

NOTE: If you were in the military between the ages of 18 and 26, please submit a copy of your DD 214. You do not need to contact Selective Service for a Status Information Letter.

The Selective Service Office will send you a registration acknowledgement letter or a Status Information Letter as a result of your registration or phone call. This letter must be submitted to the Financial Aid Office for review to determine if you are eligible to receive federal funds. If you were required to register but did not, you will need to submit a personal statement with the Selective Service Status Information Letter as to why you did not register.
