

Online Career Training Programs

National University's Division of Extended Learning, in partnership with Gatlin Education Services, offers online open enrollment programs designed to provide the workforce skills necessary to acquire professional caliber positions for many in-demand occupations.

Our programs are designed by a team of professionals from each respective field, who work with existing base material to provide the most effective Web-based learning experience. Instructors are actively involved in the students' online learning experience, responding to any questions or concerns as well as encouraging and motivating students to succeed. Each program includes everything you need to succeed (books, CD-ROMs, lessons, quizzes, and assignments). Grades are a combination of computer graded tests and the instructor's evaluation of the students' work. Students love the quality as well as the convenience of anytime, anywhere learning!

Detailed course outlines are available at www.nu.edu/el
