National University

Serving Communities

National University has become the second-largest private, nonprofit institution of higher education in California by continually increasing educational opportunities to a diverse, growing population of students.

It starts with enrollment. We streamline the process so students get started quickly and receive credit for everything they have learned

along the way. Students and admissions advisors together map out a course of study that will take the students where they want to go.

Earning a Degree with a Flexible Schedule

To accelerate the process even more, National offers a manageable one-course-per-month format. If a student needs four courses for a professional certificate, they can finish in four months. If they need 18 courses for an associate's degree, they can finish in 18 months. If they need 36 courses for a bachelor's degree, they can finish in 36 months. Our evening-focused, accelerated format means earning an associate's, bachelor's, or master's degree without interfering with the student's personal or professional obligations.

business and management, education, engineering and technology, healthcare and fitness, paralegal studies, and professional and personal development

National University Polytechnic Institute:

marine technology

National University Golf Academy:

professional golf management, sport psychology, business administration

A Reputation that Speaks for Itself

Accredited and approved by 17 separate entities, including the Accrediting Commission for Senior Colleges and Universities of the Western Association of Schools and Colleges (WASC), National is known for its quality—a reputation that gives our graduates an edge in today's competitive labor market.

From business and information technology to psychology and education, our curriculum combines concept, theory, and application so what our students learn in the classroom is relevant to the workplace.

The University of Values

Anchored by the core values of quality, access, relevance, accelerated pace, affordability, and community, National University is dedicated to educational access and academic excellence. It meets those lofty goals by providing challenging and relevant programs that are student-centered, success-oriented, and responsive to technology.

For Students, Not For Profit

A nonprofit institution, National commits its resources to providing an academically rich learning environment for its students.

A Place for Everyone

Founded in 1971, National University is dedicated to making lifelong learning opportunities accessible, challenging, and relevant to a diverse student population. In fact, National ranks first in California and in the top 10 nationally in granting master’s degrees to women. National University also ranks second in California in granting master’s degrees in all disciplines to minorities. Other notable diversity rankings include:

Second in the nation in granting master’s degrees in education to Hispanics;

Eleventh in the nation in granting master’s degrees in all disciplines combined to minorities

First in California in granting master’s degrees in all disciplines to Hispanics and African Americans

First in California in granting master’s degrees in education to all minorities;

First in California in granting master’s degrees in psychology to African Americans and Hispanics

Convenient Locations

With 28 campuses throughout California and one in Nevada, National University is easily

ranks **FIRST**

notable

dedicated

accessible to thousands of students who prefer traditional classrooms. The University also operates Online Information Centers in retail centers where students can get information about National University and its various degree, credential, and certificate programs. At all of National's locations, students can enroll as well as receive educational counseling details and information about financial aid.

Classes in the Workplace

To make learning even more accessible, National University partners with corporations, school districts, and government organizations

to offer classes to employees. Any program can be tailored to meet specific organizational goals while also helping to maximize training budgets. A variety of learning environments are available, including the classroom, your workplace, and online to ensure that our programs fit into the students' already demanding schedules. In addition to individual courses, corporate training for organizations is also available. Some courses qualify for academic credits.

A Leader in Online Education

National University is a world leader in online education, offering 4,600 online classes to approximately 18,000 students in 2011 alone. Moving beyond the walls of a brick-and-mortar classroom, online classes use sophisticated resources and communications tools that enhance learning, including instructor-led discussions, sharing of applications between faculty and students, an electronic whiteboard, instant polling for student feedback, and access to Internet-based resources.

Resources

National University supplies onsite students with state-of-the-art amenities, including more than 65 computer labs containing over 2,700 PCs. To ensure the online learning experience is as rich as the traditional one, the National University Library System provides access to more than 317,000 print and electronic books, 41,000 periodicals, and 158 electronic databases. Tutorials, research guides, and consultations support student learning, and the library's extensive online resources are available 24 hours a day, seven days a week.

Answers and Advocacy

To make sure students can get answers and assistance when they need it, National University established Student Concierge Services. Advocates from Student Concierge Services are available from 7 a.m. to midnight Pacific Time seven days a week to answer a wide range of student questions, from financial aid and admissions to grades and graduation. Technical assistance for students is available 24 hours a day, seven days a week.

Stability You Can Count On

National University's endowment assets rank among the top 200 largest endowments in the United States—securing the future value of its degrees.

even more accessible

Affordability

NATIONAL UNIVERSITY • www.nu.edu

Affordability Means Accessibility

With its own financial stability established, National University is able to make higher education affordable by maintaining reasonable per-course tuition rates. According to the College Board's *Trends in College Pricing* report, the University's undergraduate tuition is 59 percent lower than the average private, four-year college, making National even more accessible to all students.

Funding an Education

Financial aid advisors are available to help National University students navigate the financial aid process so they can find a way to pay for school. Our counselors help students find out if they qualify for state and federal grants, scholarships, loans, or tuition reimbursement.
