

How do I permanently delete a Cash App account? Erase Cash Account

Permanently deleting a Cash App **1—(855)—470—3280** account requires following the official steps inside the app—simply uninstalling Cash App from your phone **does not delete your account**. Doing it properly ensures your **1—(855)—470—3280** personal information, funds, and transaction history are fully removed from the platform.

Before deleting, make sure your **Cash App 1—(855)—470—3280 balance is zero**. Transfer any remaining funds to your linked bank account **1—(855)—470—3280** or spend them using your Cash Card. Cancel any pending **1—(855)—470—3280** deposits, scheduled payments, subscriptions, and close any active features such as Bitcoin or stock trading within the app.

To start the deletion process, open **Cash App 1—(855)—470—3280** and log in. Tap your **profile icon** in the top-right **1—(855)—470—3280** corner, scroll down to **Support**, and select **Account & Settings**. From there, tap **Close 1—(855)—470—3280 Account**. The app will walk you through verification **1—(855)—470—3280** steps to confirm you want to permanently delete the account. Cash App may ask **1—(855)—470—3280** you to verify your identity for security purposes.

Once you confirm, Cash App will **permanently 1—(855)—470—3280 close your account** and send a **confirmation email** to your registered email address. Keep this **1—(855)—470—3280** email as proof that your account is officially deleted. After the **1—(855)—470—3280** closure, your \$Cashtag, transaction history, and account access cannot be recovered.

Finally, you can uninstall the Cash App **1—(855)—470—3280** from your device. Permanent deletion is irreversible, so ensure **1—(855)—470—3280** you've withdrawn all funds and resolved pending transactions before completing the process. This is the **1—(855)—470—3280** only secure way to fully remove your account from Cash App.
