National University
Division of Extended Learning

American Society for Quality Certification Training

The leading authority on career-boosting certifications for quality professionals

National University's Division of Extended Learning has partnered with the San Diego Chapter of the **American Society for Quality (ASQ)** to provide refresher courses that prepare individuals for ASQ certification. ASQ is the world's leading authority on quality, advancing learning, quality improvement, and knowledge exchange to improve business results, and to create better workplaces and communities worldwide.

Each refresher course prepares students for the ASQ Certification Exam to help students advance their career, gain an advantage over their competition, and increase their potential for a higher salary.

Check out our upcoming ASQ refresher courses!
Please visit our website **www.nu.edu/el** for the dates and locations of our course offerings.

American Society for Quality Course Schedule

Courses meet once a week for three hours, from 5:30 - 8:30 p.m., and are taught by subject matter experts in the field. Students who successfully complete all course requirements will earn Continuing Education Units (CEUs).

Please visit our website **www.nu.edu/el** for the dates and locations of our course offerings.

CMQ/OE   10 Weeks; 3 CEUs; $300
The **Certified Manager of Quality/Organizational Excellence** is a professional who leads and champions process improvement initiatives—everywhere from small businesses to multinational corporations—that can have regional or global focus in a variety of service and industrial settings.

CQI   10 Weeks; 3 CEUs; $300
The **Certified Quality Inspector** is an inspector who, in support of and under the direction of quality engineers, supervisors, or technicians, can use the proven techniques included in the body of knowledge.

CQT   10 Weeks; 3 CEUs; $300
The **Certified Quality Technician** is a paraprofessional who, in support of and under the direction of quality engineers or supervisors, analyzes and solves quality problems, prepares inspection plans and instructions, selects sampling plan applications, prepares procedures, trains inspectors, performs audits, analyzes quality costs and other quality data, and applies fundamental statistical methods for process control.

CRE   12 Weeks; 3.6 CEUs; $350
The **Certified Reliability Engineer** is a professional who understands the principles of performance evaluation and prediction to improve product/systems safety, reliability, and maintainability.

CQA   10 Weeks; 3 CEUs; $300
The **Certified Quality Auditor** is a professional who understands the standards and principles of auditing, and the auditing techniques of examining, questioning, evaluating and reporting to determine a quality system's adequacy and deficiencies.

CSQE   12 Weeks; 3.6 CEUs; $350
The **Certified Software Quality Engineer** understands software quality development and implementation, software inspection, testing, verification and validation, and implements software development and maintenance processes and methods.

CQE   15 Weeks; 4.5 CEUs; $400
The **Certified Quality Engineer** is a professional who understands the principles of product and service quality evaluation and control.

Students are responsible for ordering the required textbooks (primers) through the Quality Council of Indiana at the following site: www.qualitycouncil.com/cm.asp#primers_bm.
