

YOU ALREADY KNOW A LOT ...

Earn the college credit
you deserve, and save
time and money!

DIVISION OF EXTENDED LEARNING

The knowledge that you acquired outside the classroom is extremely valuable. At National University we have a process for turning this learning from professional experience into academic credit. You'll enroll in a course that will teach you how to build an experiential learning portfolio that you can use to earn up to 22.5 course credits. You can earn your degree faster and save money!

There are many types of learning that can be evaluated with a portfolio:

- Work experience and job skills
- Employer training programs
- Military service
- Independent study
- Volunteer or community service
- Other training or skills

The following degree programs accept prior learning credits:

- Bachelor of Public Administration
- Bachelor of Science in Criminal Justice Administration
- Bachelor of Science in Homeland Security and Emergency Management

Here is how it works:

Credit Predictor Tool

This easy-to-use tool helps you identify areas of your knowledge and expertise that align with college courses and could be evaluated for college credit. You can use this tool at learningcounts.org/predictor.

Online and Telephone Guidance

Admissions advisors are ready to address your questions about earning credit for what you know. Call (855) 355-6288 or visit nu.edu.

Portfolio Development Courses

If you are ready to seek credit, we offer a course that explains how to create a portfolio that shows what you know so it can be evaluated.

Portfolio Evaluation and Credit Recommendations

Learning portfolios are evaluated for credit by expert faculty drawn from a wide range of schools across the country. If credit is awarded it will appear on your transcript!
