Health Care Administration

The field of health care administration offers students an excellent opportunity to focus their graduate business study in one of the largest industries in the nation. Major changes are occurring within the U.S. Health Delivery System opening a variety of career opportunities. The structure and financing of healthcare is changing rapidly. Future medical and health services managers must be prepared to deal with evolving integrated healthcare delivery systems, technological innovations, an increasingly complex regulatory environment, restructuring of work, and an increased focus on preventive care. Opportunities are in government at all levels, public health, professional agencies, and in the direct delivery system.
