GENERAL INFORMATION

National University has received specialized accreditation for its business programs through the International Assembly for Collegiate Business Education (IACBE), located in Olathe, Kansas. The business programs in the following degrees are accredited by the IACBE:

- Master of Accountancy
- Master of Arts in Human Resources Management
- Master of Business Administration
- Master of Science in Management Information Systems
- Master of Science in Organizational Leadership
- Bachelor of Arts in Management
- Bachelor of Business Administration
- Bachelor of Science in Accountancy
- Bachelor of Science in Financial Management
- Bachelor of Science in Hospitality and Casino Management
- Bachelor of Science in Organizational Leadership

ACADEMIC INFORMATION FOR UNDERGRADUATE DEGREES

Provisional Acceptance

Undergraduate students may take courses during provisional acceptance while the Office of the Registrar awaits receipt of official transcripts from:

- All colleges and universities the student has previously attended.
- All examinations the student has taken including CLEP, AP, DSST, and/or Excelsior College exams
- Military documents
- Official Military DD-295 or Official Military JST Transcript (Army, Navy or Marine)
- Coast Guard Institute (Coast Guard)
- Community College of the Air Force transcript
- High school transcripts (required if the student has not been awarded an Associate degree from a regionally accredited institution or has less than 60 semester units [90 quarter units] of transferable coursework from previous collegiate level institutions or if the student has not attended any higher education institution). G.E.D. or high school proficiency certificates may be submitted by students who have obtained high school equivalency through an alternative route. Coursework not included in total transferable units include remedial, pass/fail, repeats, and excess vocational, and PE.

If the Office of the Registrar does not receive all required documentation within 60 days of the date of admission, the students’ studies are temporarily interrupted until the Registrar receives all official documents. If the students’ studies are temporarily interrupted this can affect financial aid eligibility. The Registrar will send a courtesy notification every 30 days to students in provisional status advising them of any outstanding documentation needed for their file to be complete. Students should also view their To-Do list which can be found on the student web portal to determine outstanding documents. Coursework satisfactorily completed during the provisional acceptance period counts toward graduation if it is consistent with specific degree program requirements.

Advanced Placement (AP) Exam

Spanish Language – Score of 3 - 5 (9 quarter units)
Transfer Credit allowed for: SPN 100 and SPN 101

GENERAL EDUCATION

Beginning March 1, 2014, the following courses are included in the General Education Requirement:

AREA G: LIFELONG LEARNING AND SELF DEVELOPMENT
FFL 100 Foundation to Academic Success

AREA A-G: GENERAL EDUCATION
HIS 300 Roots of Western Civilization
   (no longer fulfills Diversity)
MUS 326+ American Music
+ Diversity Enriched Offering

COLLEGE OF LETTERS AND SCIENCES

Terminated Programs
- Bachelor of Science Major in Environmental Science
- Minor in Chinese Studies
- Graduate Certificate in Bereavement Studies

Modified Programs

UNDERGRADUATE DEGREES

■ BACHELOR OF ARTS
◆ MAJOR IN ENGLISH
Faculty Advisor: John Miller; (949) 733-0632; jmiller@nu.edu

Modified Program Description and Transition Programs

The Bachelor of Arts in English provides a strong background in the study of English. The program stresses literary analysis, diversity, critical thinking, and written and oral communication skills through a rigorous curriculum of literature, composition, language and linguistics, and communication studies. It is an excellent preparation for careers in teaching, media, advertising, writing, and publishing; for graduate or professional studies in
English, communications, or law; and for advancement in any field in which communication skills are important. Students interested in creative writing may choose the Concentration in Creative Writing.

Note: Students interested in teaching English or Language Arts in middle or secondary schools should consider enrolling in the Single Subject Matter Preparation Program or the major in English with Single Subject Credential.

**BA English/MA English and BA English/MFA Creative Writing Transition Programs**

Students enrolled in the BA English program who have a cumulative GPA of at least 3.0 and are within six courses of completing the BA program may register for the BA English/MA English or BA English/MFA Creative Writing transition programs. They do so by asking their admission advisor to submit a plan change into the transition program.

Students in the BA English/MA English transition program may take any one 600-level ENG course (excluding ENG 689 or ENG 699) as an elective within the BA English program. For students in the BA English/MA English transition program, the University will waive one MA English course taken as part of the BA degree if the grade earned is a “B” or higher.

Students in the BA ENG/MFA Creative Writing transition program may take one or two courses from among the following:

- any 600-level ENG courses (excluding ENG 689 and ENG 699)
- MCW 600, MCW 610, or MCW 635 (note that MCW 635 is an eight week course and should not be taken concurrently with other courses).

For students in the BA English/MFA Creative Writing transition program, the University will waive up to two MFA Creative Writing courses taken as part of the BA degree if the grade earned is a “B” or higher.

No graduate units will be awarded; instead the University will waive the MA English or MFA course taken as part of the BA degree. However, students must still meet the residency requirements for the MA English or MFA Creative Writing programs (40.5 quarter units). Students must apply to and begin the MA English or MFA Creative Writing programs within six months of completing the BA English program. A complete description of Transition Program requirements can be found in the Policies and Procedures section of this Catalog.

**MAJOR IN INTERDISCIPLINARY STUDIES WITH A PRELIMINARY MULTIPLE SUBJECTS TEACHING CREDENTIAL (CALIFORNIA)**

*Faculty Advisor: Jacqueline Caesar; (858) 642-8350; jcaesar@nu.edu*

*For Credential: Mary Anne Weegar; (858) 642-8360; mweegar@nu.edu*

**Modified Core Requirements**

ART 400 is replaced with ART 329 World Art.

---

**BACHELOR OF SCIENCE**

**MAJOR IN BIOLOGY**

*Faculty Advisor: Michael Maxwell; 858-824-9223; mmmaxwell@nu.edu*

**Modified Degree Requirements and Preparation for the Major**

**Degree Requirements**

To receive a Bachelor of Science, Major in Biology, students must complete at least 180 quarter units as articulated below, 45 of which must be completed in residence at National University, 76.5 of which must be completed at the upper division level, and a minimum 70.5 units of the University General Education requirements. In the absence of transfer credit, additional general electives may be necessary to satisfy total units for the degree. Refer to the section on undergraduate admission requirements for specific information regarding admission and evaluation.

* Completion of BIO 100, 100A, 201, 201A, 202, 202A, 203, 203A is equivalent to the course sequence BIO 161, 162, 163, 169A for fulfillment of the BS Biology degree.

**Preparation for the Major**

(16-17 courses; 60.0-61.5 quarter units)

- **MTH 210** Probability and Statistics  
  *Prerequisite: Accuplacer test placement evaluation, or MTH 12A, and MTH 12B*

- **MTH 215** College Algebra & Trigonometry  
  *Prerequisite: Accuplacer test placement evaluation, or MTH 215, and MTH 12B*

or

- **MTH 216A** College Algebra I (3 quarter units)  
  *Prerequisite: Accuplacer test placement evaluation, MTH 12A, and MTH 12B*

- **MTH 216B** College Algebra II (3 quarter units)  
  *Prerequisite: MTH 216A*

- **CHE 141** General Chemistry 1  
  *Prerequisite: MTH 215, or equivalent, CHE 101*

- **CHE 142** General Chemistry 2  
  *Prerequisite: CHE 141*

- **CHE 143** General Chemistry 3  
  *Prerequisite: CHE 142*

- **BIO 161** General Biology 1  
  *Prerequisite: BIO 161, BIO 162*

- **PHS 171** General Physics 1  
  *Prerequisite: MTH 215, or MTH 216A, and MTH 216B*

- **PHS 172** General Physics 2  
  *Prerequisite: PHS 171*

- **PHS 173** General Physics 3  
  *Prerequisite: PHS 171, PHS 172*

- **CHE 150** Introductory Organic Chemistry  
  *Prerequisite: CHE 101, and CHE 101A*

- **CHE 150A** Introductory Organic Chem Lab (1.5 quarter units)  
  *Prerequisite: CHE 150*

- **BIO 169A** General Biology Lab (1.5 quarter units)  
  *Prerequisite: BIO 161, BIO 162, BIO 163*
CHE 149A  General Chemistry Laboratory (1.5 quarter units)
   Prerequisite: CHE 143

PHS 179A  General Physics Lab (1.5 quarter units)
   Prerequisite: PHS 171, PHS 172, PHS 173

* May be used to meet General Education requirements

GRADUATE DEGREES

MASTER OF ARTS IN COUNSELING PSYCHOLOGY
   Faculty Advisor: Brian Tilley; (760) 268-1550; btilley@nu.edu

Modified Course Sequence

Core Requirements

Sequence I
(6 courses; 27 quarter units)
In cohort system locations students will take classes from this sequence
then take 3 area of specialization courses, Core Course Sequence II, and
any electives required. Students in open enrollment locations should
consult their regional lead faculty for the sequence of their courses.

PSY 605  Lifespan Development
   Prerequisite: Bachelor's Degree in Psychology or
   PSY 501A, and PSY 501B

PSY 608  Evidence-Based Practice
   Prerequisite: Bachelor's Degree in Psychology or
   PSY 501A, and PSY 501B

PSY 610  Case Management
   Prerequisite: Bachelor's Degree in Psychology or
   PSY 501A, and PSY 501B

PSY 611A  Counseling Paradigms I
   Prerequisite: Bachelor's Degree in Psychology, or
   PSY 501A, and PSY 501B

PSY 612A  Clinical Assessment I

PSY 612B  Clinical Assessment II
   Prerequisite: PSY 612A

LPCC Specialization
Students in the LPCC specialization will take these courses between
Core Sequence I and II.

PSY 653  Research: Paradigms & Critique

PSY 624A  Testing and Assessment

CED 612  Career & Academic Counseling

MFT Specialization
Students in the MFT specialization will take these courses between Core
Sequence I and II.

PSY 636  Child and Adolescent Therapy

PSY 632A  Family Therapy

PSY 632B  Couples Therapy

Core Requirements

Sequence II
(9 Courses; 40.5 quarter units)

PSY 627  Legal & Ethical Issues

PSY 611B  Counseling Paradigms II

PSY 680A  Counseling Practicum I
   Prerequisite: PSY 611B

PSY 628  Group Therapy

PSY 678  Clinical Biopsychology

CHD 640  Treatment of Addictions

PSY 679  Psychology of Trauma

PSY 637  Cultural Competencies

PSY 680B  Counseling Practicum II for MFTs
   Prerequisite: PSY 680A

OR

PSY 680C*  Counseling Practicum II for LPCCs
   Prerequisite: PSY 680A

   * PSY 680C meets the requirement for PSY 680B. Students who want to
     pursue both specializations should complete PSY 680C.

Approved Electives
(2 courses; 9 quarter units)
Students may choose two of the following electives to complete their program. Students who were required to take PSY 501A and PSY 501B
at the beginning of the program have fulfilled their elective credit units
with those courses.

AGE 602  Foundations of Gerontology II

AGE 610  Wellness/Engagement in Aging
   Prerequisite: AGE 602

AGE 611  Psychology of Older Adults
   Prerequisite: AGE 602

AGE 613  Counseling Older Adults
   Prerequisite: AGE 602

CJA 600  CJ Theory, Practice & Policy

CJA 610  Critical Issues in CJ

CJA 627  Comparative CJ Systems

CJA 650  Advanced Criminological Theory

CJA 660  Drugs, Alcohol & Public Policy

CJA 665  Violence and Victimization

COH 604  Theories of Health Behavior

COH 616  Mental Health Promotion

COH 617  PH Aspects of Violence
   Prerequisite: COH 604

COH 619  PH Aspects of Human Sexuality
   Prerequisite: COH 604

COH 621  PH Aspects of Drug Addiction

FSC 622  Law and Criminal Procedure

FSC 631  Major Case Investigation

FSC 643  Forensic Psychology

HUB 601A  Organizational Behavior

HUB 639  Issues in Sexuality

HUB 642  Theories of Behavior Change

HUB 648  Personal Growth & Comm.

IHC 600  Intro to Complementary Healing

IHM 600  Integrative Stress Management

IHM 630  Spirituality, Health & Healing

LED 602  Developing Groups and Teams
LED 604  Leading Change and Adaptation
LED 605  Conflict and Power Dynamics
MGT 601M  Principles of Management
MGT 605  Organization Mgmt & Leadership
ODV 600  Theory & Practice of OD
PED 667  Developmental Psychopathology
PED 676  Applied Behavior Analysis
PSY 602  Sport/Performance Psychology
PSY 603  Performance Psy Alt Population

■ MASTER OF ARTS IN ENGLISH □

BA English to MA English Transition Program
Students who are in the process of completing a BA with a major in English at National University may be eligible for the BA to MA English transition program. Requirements for the transition program are listed under the Bachelor’s Degree with a major in English in the catalog.

▲ Specialization in Rhetoric □
Faculty Advisor: Christine Photinos; (858) 642-8349; cphotinos@nu.edu

Modified Program Description
The Master of Arts in English with a Specialization in Rhetoric provides a program of graduate study in literature as well as a wide range of cultural production, from classical oration to contemporary cinema, with particular attention paid to how language and image are used to produce various effects and meanings. Students study literary texts and other cultural artifacts across a variety of media forms, developing readings that are grounded in contextual understanding. They complete course work in literary studies, classical and modern rhetoric, composition pedagogy, media studies, and film studies. The prescribed curriculum contains several variable-topic courses, allowing students to pursue broad program goals in topic areas matched to their individual interests. The program is appropriate for students seeking preparation for doctoral study or college-level teaching in English and related fields, or general cultural enrichment.

■ MASTER OF FINE ARTS IN CREATIVE WRITING □
Faculty Advisor: Frank Montesonti; (301) 662-2159; fmontesonti@nu.edu

Modified Program Description, Application Requirements, Transition Program Language, Elective Requirements
The Master of Fine Arts in Creative Writing is a studio degree where students produce creative work and refine it through workshops that focus on developing craft in fiction, creative nonfiction, poetry, or screenwriting. In online workshops, students write constructive critiques of the work of their classmates, read modern texts from the writer’s perspective, and participate in generative writing activities.

Courses are taught by established writers in the field who share their perspective and expertise in the craft. Participating in seminars and workshops, students build valuable skills in their chosen concentration. The culmination of the program is the thesis project, a publishable quality final project in the student’s chosen specialty that demonstrates a critical application of knowledge in the field which should make an independent contribution to existing work in that area. During the thesis process, students work one-on-one with a faculty mentor in drafting and revising a publishable quality thesis.

This program is excellent preparation for a professional career in writing, working in the areas of publishing or filmmaking, and is the minimal academic qualification appropriate for those who desire to teach creative writing at the college or university level.

Students are expected to focus in one genre, but are required to take seminar workshops in different genres in order to broaden the scope of their reading and writing. Students are encouraged to take graduate courses in English Literature as electives, as the critical study of literature goes hand in hand with its composition. Interested students may submit to, or volunteer to work on, the student literary journal, the GNU.

The Master of Fine Arts in Creative Writing program is entirely online with no on-ground residency requirement.

Application Requirements
To be considered for admission, applicants must meet the University graduate admission requirements listed in the general information. In addition, applicants in creative writing should submit portfolios of their writing directly to: fmontesonti@nu.edu. The portfolio should include 20-30 pages of fiction or literary nonfiction (usually two to three short stories or essays), 10-20 pages of poetry, a completed screenplay, or a substantial sample of work in several forms.

Based on the portfolio, applicants may be advised to complete one or more of the following undergraduate courses prior to enrolling in the advanced writing workshops:
ENG 401  Fiction Workshop
ENG 402  Poetry Workshop
ENG 403  Screenwriting Workshop

BA English to MFA Transition Program
Students who are in the process of completing a BA with a major in English and concentration in creative writing at National University may be eligible for the BA to MFA transition program. Requirements for the transition program are listed under the Bachelor’s Degree with a major in English in the catalog.

Elective Requirements
(4 courses; 18 quarter units)
A minimum of two electives should be chosen from the list below. All graduate courses with the prefix ENG, except the capstone courses, are approved electives for the MCW program.
MCW 635  Writing for Young Adults
ENG 600  Seminar in Literary Theory
ENG 610  Multicultural Literature
ENG 620A  Literary Period or Movement I
ENG 620B  Literary Period or Movement II
ENG 640  Seminar in Poetry
ENG 655  Composition Pedagogy
ENG 656  History of Rhetoric
ENG 657  Modern Rhetoric
ENG 660  Seminar in Literary Hypermedia
ENG 665  Film Theory
ENG 666  Film History: The Silents
ENG 667  Film History: American Film
ENG 668  Film Genre Studies
ENG 669  World Film
ENG 670 Comparative Literary Studies
ENG 671 Pictures that Speak
ENG 680A Seminar in a Theme I
ENG 680B Seminar in a Theme II
ENG 685 Great Directors: American
ENG 686 Great Directors: International
ENG 689 Research and Methodology
ENG 690A Major Author Seminar I
ENG 690B Major Author Seminar II

The remaining two electives may be from the above list or if the student wants to take more workshop courses, additional advanced MCW writing workshops that the student has not already taken as part of her/his specialized study may be taken as electives. These include:

MCW 630A Advanced Workshop in Fiction
Prerequisite: MCW 630
MCW 630B Adv Workshop in Fiction
Prerequisite: MCW 630
MCW 640A Advanced Workshop in Poetry
Prerequisite: MCW 645
MCW 640B Advanced Workshop in Poetry
Prerequisite: MCW 645
MCW 650A Adv Workshop in Lit Nonfiction
Prerequisite: MCW 650
MCW 650B Adv Workshop in Lit Nonfiction
Prerequisite: MCW 650
MCW 680A Adv Workshop in Screenwriting
Prerequisite: MCW 685
MCW 680B Adv Workshop in Screenwriting
Prerequisite: MCW 685, and MCW 680A

SCHOOL OF EDUCATION

Terminated Programs

• Area of Specialization in Teaching and Learning in a Global Society

New Programs

New Area of Specialization in U.S. Education in a Global Context for the following:

• Master of Arts in Teaching
• Master of Arts in Education
• Master of Education with a Multiple or Single Subjects Teaching Credential

▲ Specialization in U.S. Education in a Global Context  
Faculty Advisor: Peter Serdyukov; (858) 642-8332; pserdyuk@nu.edu

Courses are designed for K-12 teachers. With a focus on global education, content offered in this program will provide educators with advanced views on US school practices based on comparative analysis of international educational systems. Students will gain knowledge of issues affecting education and innovative approaches in teaching and learning that will be applied in contemporary school environments.

Program Learning Outcomes

Upon successful completion of this program, students will be able to:

• Analyze the interdependence among socio-economic, political, geographic and technological factors at both national and global levels and their impact on education and educational systems.

• Analyze the ways in which cultural, religious and linguistic factors affect countries’ choices of educational systems and educational priorities.

• Evaluate various international educational theories and practices using research and personal experiences in order to make improvements to current school environments.

• Implement new knowledge of innovative international educational systems, educational theories and practices into practical recommendations for improving teaching and learning in US schools.

• Design effective organizational, technological or instructional applications to address challenges in the US professional educational environment.

Specialization Requirements

(4 courses; 18 quarter units)

MAT 620 Multidimensional Education

MAT 621 Impact of Culture & Language  
Prerequisite: MAT 620

MAT 622 Comparative Ed Systems  
Prerequisite: MAT 621

MAT 623 Transformative Ed Practices  
Prerequisite: MAT 622

GRADUATE CERTIFICATE IN U.S. EDUCATION IN A GLOBAL CONTEXT

Faculty Advisor: Peter Serdyukov; (858) 642-8332; pserdyuk@nu.edu

These courses are designed for K-12 teachers, especially those who teach in the social sciences, foreign and second languages, language arts, math and science. With a focus on global education, content offered in this program will provide practicing educators with advanced views on US school practices based on analyses of international educational systems. Students will gain knowledge of issues affecting education, including socio-economics, culture, technology, as well as innovative approaches in teaching and learning. In addition, students will increase skills in implementing effective approaches and strategies that address the needs of contemporary school environments and diverse student populations.

Educational administrators, policymakers and international students would also benefit from participation in this program.

Program Learning Outcomes

Upon successful completion of this program, students will be able to:

• Analyze the interdependence among socio-economic, political, geographic and technological factors at both national and global levels and appraise their impact on education and educational systems.

• Analyze the ways in which cultural, religious and linguistic factors affect countries’ choices of educational systems and educational priorities.

• Evaluate various international educational theories and practices using research and personal experiences in order to make improvements to current school environments.

• Synthesize new knowledge of innovative international educational systems, educational theories and practices, and develop practical recommendations for improving teaching and learning in US schools.

• Design effective organizational, technological or instructional applications to address challenges in the US professional educational environment.

Certificate Requirements

(4 courses; 18 quarter units)

MAT 620 Multidimensional Education

MAT 621 Impact of Culture & Language  
Prerequisite: MAT 620

MAT 622 Comparative Ed Systems  
Prerequisite: MAT 621
Modified Programs
The following programs contain the modified course below:

■MASTER OF EDUCATION WITH A PRELIMINARY MULTIPLE OR SINGLE SUBJECTS TEACHING CREDENTIAL AND INTERNSHIP OPTION (CALIFORNIA)

■MASTER OF EDUCATION WITH NEVADA SECONDARY LICENSURE

■PRELIMINARY EDUCATION SPECIALIST AUTHORIZATION TEACHING CREDENTIAL

■PRELIMINARY SINGLE SUBJECTS TEACHING CREDENTIAL WITH INTERNSHIP OPTION (CALIFORNIA)

Due to updated state requirements to add credential or content areas to an existing California credential, TED 633 Content Area: Instruct-Assess was modified to include subject specific content area topics in each authorization. Per these new regulations, single subject candidates who intend to pursue more than one single subject content area must demonstrate subject matter competency in each authorization area (e.g. passage of the CSET) and pass a 4.5qu pedagogy course in each area of study. TED 633 Content Area: Instruct-Assess may now be repeated for credit in different single subject content areas.

TED 633  Content Area: Instruct-Assess  4.5qu
Topic 1: Initial SS Content Area
Prerequisite: TED 623

Or

TED 633  Content Area: Instruct-Assess  4.5qu
Topic 2: Additional SS Content Area
(Assignments are designed for candidates who hold a California Preliminary Multiple or Single Subject Teaching Credential or have successfully completed Topic 1. May be repeated twice for credit)

■MASTER OF SCIENCE IN EDUCATIONAL AND INSTRUCTIONAL TECHNOLOGY

Faculty Advisor: E. George Beckwith; (909) 806-3349; gbeckwith@nu.edu

Modified Program Learning Outcomes, Degree Requirements, and Course Requirements

Program Learning Outcomes
Upon successful completion of this program, students will be able to:

• Apply interdisciplinary elements from technology, psychology, and computer assisted interactive communications.
• Construct an instructional module requiring students to use and display appropriate theories and methodologies to include literary and communicative skills.
• Present effective teaching methods for adult learners using available technologies.
• Develop the social, political, economic, and global implications of web-based instruction to include tools for group processes and collaboration.
• Demonstrate multimedia elements such as simulations, virtual worlds, and learning objects.
• Demonstrate professional ethics as well as cultural and global awareness to be responsible citizens in a diverse society to include how technology education may contribute to each.

Degree Requirements
(10 courses; 45 quarter units)
To obtain a Master of Science in Educational and Instructional Technology students must complete 45 quarter units of graduate work. Where appropriate, students can transfer a maximum of 4.5 quarter units of graduate work completed at another regionally accredited institution to meet stated requirements in the program if the units were not used toward a conferred degree. Students should refer to the section on graduate admission requirements for specific information regarding application and evaluation.

Core Requirements
(10 courses; 45 quarter units)

EDT 600A  Technology Foundations
EDT 601  Instructional Design  
Prerequisite: EDT 600A
EDT 605  Education Theory & Technology

EDT 607  Media Based Learning Objects  
Prerequisite: EDT 600A, EDT 601, and EDT 605
EDT 609  Developing Online Courseware  
Prerequisite: EDT 600A, EDT 601, EDT 605, and EDT 607
EDT 613  Simulations & Virtual Reality  
Recommended: Prior completion of: EDT 600A, EDT 607, EDT 609, EDT 631
EDT 631  Media and Instruction  
Prerequisite: EDT 600A
EDT 632  Technology and Leadership  
Prerequisite: EDT 600A, EDT 601, EDT 605, EDT 607, EDT 609, EDT 631
EDT 693  Instructional Eval. & Devl.  
Prerequisite: EDT 600A, EDT 601, EDT 605, EDT 607, EDT 609, EDT 631, EDT 613, EDT 632
EDT 695  Capstone Project  
Prerequisite: EDT 693
GRADUATE CERTIFICATE IN EDUCATIONAL TECHNOLOGY
Faculty Advisor: Cynthia Sistek-Chandler; (858) 642-8322; cchandler@nu.edu

Modified Program Learning Outcomes and Course Requirements
This graduate certificate is designed for individuals wishing to develop their knowledge and skills for integrating technology in a PK-12 educational setting. The four course sequence will provide the students with hands-on activities to develop a portfolio of digital work. Students will develop competency with contemporary web tools and online systems.

Program Learning Outcomes
Upon successful completion of this program, students will be able to:
• Integrate interdisciplinary connection between evidence based technologies for multimedia instruction.
• Use teaching strategies to accommodate learners in an online or blended environment.
• Participate in online community building and web-based interactive activities.
• Assess the effectiveness and efficiency of multimedia courseware and internet resource for use in instruction and delivery system.
• Examine the critical issues involved in designing effective distance educational programs.
• Design web-based courses using web page design authoring tools.

Required Courses
(4 courses; 18 quarter units)
Students need to take EDT 671 as the last class in the sequence.
EDT 605  Education Theory & Technology
EDT 610  Teaching Online
EDT 660  Multimedia & Interactive Tech.

EGR 440  Project Management Fundamental

SCHOOL OF ENGINEERING, TECHNOLOGY AND MEDIA

Terminated Programs
• Associate of Arts in Digital Media Design
• Undergraduate Certificate in Construction Management
• Undergraduate Certificate in Construction Specifications
• Master of Science in Wireless Communications

Modified Programs
Two transition programs are available to students in the BSITM degree who meet certain requirements as specified below:

**BSITM/ Master of Science in Cyber Security and Information Assurance (MSCSIA) Transition Program**

Students must complete graduate-level coursework taken as part of the BSITM degree with a grade of B or better. This coursework, which counts as BSITM electives, will not transfer as graduate-level credit to National University or any other institution as it is part of an undergraduate degree program. Grades earned in graduate level courses will be calculated as part of the student’s undergraduate grade point average. Students must be within completing their last six courses in their undergraduate program and have a cumulative GPA of at least a 3.00 to be eligible. Students must apply for and begin the MSCSIA program within six months after completing their final BSITM course. Students must complete their MSCSIA program within four years with no break exceeding 12 months. This Transition Program allows currently enrolled BSITM students with a cumulative grade point average of at least a 3.0, who are within completing their last six courses, to register for two MSCSIA courses as electives. Students must complete graduate-level coursework taken as part of the BSIS degree with a grade of B or better. This coursework, which counts as BSITM electives, will not transfer as graduate-level credit to National University or any other institution as it is part of an undergraduate degree program.

**BSITM / Master of Science in Management Information Systems (MSMIS) Transition Program**

Students must complete graduate-level coursework taken as part of the BSITM degree with a grade of B or better. This coursework, which counts as BSITM electives, will not transfer as graduate-level credit to National University or any other institution as it is part of an undergraduate degree program. Grades earned in graduate level courses will be calculated as part of the student’s undergraduate grade point average. Students must be within completing their last six courses in their undergraduate program and have a cumulative GPA of at least a 3.00 to be eligible. Students must apply for and begin the MSMIS program within six months after completing their final BSITM course. Students must complete their MSMIS program within four years with no break exceeding 12 months. This Transition Program allows currently enrolled BSITM students with a cumulative grade point average of at least a 3.0, who are within completing their last six courses, to register for two MSMIS courses as electives for their BSITM degree. Students can take the following two courses: CIS601 and CIS607. The number of courses required to earn the MSMIS degree for Transition Program students is reduced from 12 to 10 courses, depending on courses taken and grades earned.

**MAJOR IN INFORMATION SYSTEMS**

Faculty Advisor: Mudasser Wyne; (858) 309-3433; mwyne@nu.edu

Modified Program Sequencing and New Concentrations

The Bachelor of Science in Information Systems (BSIS) program links business and technology, and there is great demand in the corporate world for people who can integrate all elements of the enterprise into a comprehensive network of responsive, proactive information delivery systems. Information systems have become increasingly important in fields such as healthcare and criminal justice. The BSIS program includes: data communications, systems analysis, system development, database management system, project management, enterprise architecture, IT infrastructure and IS strategy, management and acquisition.

Transition Program is available for students in the BSIS to Master of Science in Management Information Systems. Students must certain requirements as detailed.

**BSIS/ Master of Science in Management Information Systems (MSMIS) Transition Program**

Students can select CIS 601 and any one of the following two courses: DAT604 and CIS 602. The number of courses required to earn an MSMIS degree for Transition Program students is reduced from 12 to 10 courses, depending on courses selected and grades earned. Students must complete graduate-level coursework taken as part of the BSIS degree with a grade of B or better. This coursework, which counts as electives, will not transfer as graduate-level credit to National University or any other institution as it is part of an undergraduate degree program. Grades earned in graduate level courses will be calculated as part of the student’s undergraduate grade point average. Students must be within completing their last six courses in their undergraduate program and have a cumulative GPA of at least a 3.00 to be eligible. Students must apply for and begin the MSMIS program within six months after completing their final BSIS course. Students must complete their MSMIS program within four years with no break exceeding 12 months.

**Program Learning Outcomes**

Upon successful completion of this program, students will be able to:

- Apply analytical and critical thinking skills, and information systems concepts for solving organizational problems.
- Discuss the potential global impact of specific information systems solutions.
- Evaluate and implement organizational planning, design, and integration of information systems solutions in competitive environment.
- Plan and design organizational communication, infrastructure, and networking topology.
- Improve strategic information management procedures and processes.
- Identify innovative and efficient solutions to solve organizational problems.
- Demonstrate written and oral communication skills in a collaborative environment.
Degree Requirements
(17 courses; 76.5 quarter units)

Core requirements
(10 courses; 45 quarter units)
CIS 301 Mgmt Information Systems
CIS 310 Technology Project Management
CIS 320 Systems Analysis & Integration
CIS 350 Database Management Systems
CIS 421 Enterprise Architecture
Prerequisite: CIS 301
CIS 422 IT Infrastructure
Prerequisite: CIS 421
CIS 423 IS Strategy, Mgt & Acquisition
Prerequisite: CIS 422
CSC 350 Computer Ethics
CIS 420 Information Systems Project I
Prerequisite: CIS 310 and 80 percent of courses in the major, except CIS 420B
CIS 420B Information Systems Project II
Prerequisite: CIS 420A

Upper-Division Electives
(3 courses; 13.5 quarter units)
Select 3 upper-division courses from the following list:
CIS 430 Web/EB Design & Development
CIS 460 Human Factor /Ergonomic Design
ITM 420 Local Area Networks
ITM 430 Wide Area Networks
Prerequisite: ITM 420
ITM 470 Information Security Management
Prerequisite: ITM 470
ITM 475 Information Security Technology
Prerequisite: ITM 470

Students must complete core courses (Except CIS420A and CIS420B) and upper division electives before taking four courses in one of the two concentrations: Information Management or Business Management.

▼ Concentration in Business Management
Faculty Advisor: Farnaz Sharifrazi; (619) 563-7311; fsharifrazi@nu.edu
Business management concentration is 4 courses from Business (4 courses from SOBM will allow students to obtain the needed skills listed below).

- General models of business
- Business models
- Business process design and management
- Organizational theory Business strategy
- Evaluation of business performance
- Analysis of organizational performance
- Analysis of individual and team performance
- Business analytics
- Business intelligence

Requirements for the Concentration
(4 courses; 18 quarter units)
MGT 309C Prin. of Mgmt & Organizations
BIM 400 Info Mgmt in Organizations
MGT 483 E-Business
Select 1 upper-division undergraduate course from the School of Business and Management

▼ Concentration in Information Management
Faculty Advisor: Mudasser Wyne; (858) 309-3433 mwyne@nu.edu

Requirements for the Concentration
(4 courses; 18 quarter units)
Students will choose four upper-division undergraduate courses from the School of Engineering, Technology and Media programs to create their own specialized concentration. This concentration requires prior approval from the program lead.

SCHOOL OF HEALTH AND HUMAN SERVICES

Modified Programs

■ BACHELOR OF SCIENCE

◆ LICENSED VOCATIONAL NURSE TO BACHELOR OF SCIENCE IN NURSING (L.V.N.-TO-B.S.N.) (CALIFORNIA)
Faculty Advisor: Mary Kracun; (858) 309-3486; mkracun@nu.edu
The Bachelor of Science in Nursing (BSN) program provides the foundation for professional nursing practice as a beginning generalist clinician who provides care to individuals, families, communities and populations. The baccalaureate degree prepares nurses for leadership in providing direct care and collaborating within care teams that work to improve the quality and safety of health care. Graduates are eligible to take the professional licensure exam (NCLEX) to earn a State license to practice as a Registered Nurse (RN).

Program Learning Outcomes
Upon successful completion of this program, students will be able to:

- Develop caring, therapeutic nursing relationships with individuals, families and groups.
- Provide safe, high quality, culturally competent, patient-centered nursing care for individuals across the life span in a variety of settings.
- Participate in the continuous improvement of nursing care quality and safety.
- Use nursing judgment to manage, prioritize, and delegate patient care in a variety of health care settings.
- Effectively communicate and collaborate with patients and the interdisciplinary team.
- Demonstrate professional identity by incorporating established standards of practice within the legal and ethical framework of nursing.
- Apply best, current evidence into nursing practice to achieve desired outcomes.
Degree Requirements
To receive a Bachelor of Science in Nursing (BSN), students must complete at least 180 quarter units as articulated below, 45 of which must be completed in residence at National University, 76.5 of which must be completed at the upper-division level, and the University General Education requirements. In the absence of transfer credit, additional general electives may be necessary to satisfy total units for the degree. The following courses are specific degree requirements. Students should refer to the section on undergraduate admission procedures for specific information on admission and evaluation.

Students exiting after completing the courses required for licensure by the California Board of Registered Nursing (as designated below) without completing at least 180 quarter units (at National University or through credit transfer) will not be granted the BSN degree.

Effective for any student enrolling at the institution as of March 1, 2014.

**BACHELOR OF SCIENCE IN NURSING (B.S.N.)
ACCELERATED POST-BACHELOR DEGREE
(CALIFORNIA)**

Faculty Advisor: Mary Kracun; (858)309-3486; mkracun@nu.edu

The Bachelor of Science in Nursing (BSN) program provides the foundation for professional nursing practice as a beginning generalist clinician who provides care to individuals, families, communities and populations. The baccalaureate degree prepares nurses for leadership in providing direct care and collaborating within care teams that work to improve the quality and safety of health care. Graduates are eligible to take the professional nurse licensure exam (NCLEX) to earn a State license to practice as a Registered Nurse (RN).

**Program Learning Outcomes**

Upon successful completion of this program, students will be able to:

- Develop caring, therapeutic nursing relationships with individuals, families and groups.
- Provide safe, high quality, culturally competent, patient-centered nursing care for individuals across the life span in a variety of settings.
- Participate in the continuous improvement of nursing care quality and safety.
- Use nursing judgment to manage, prioritize, and delegate patient care in a variety of health care settings.
- Effectively communicate and collaborate with patients and the interdisciplinary team.
- Demonstrate professional identity by incorporating established standards of practice within the legal and ethical framework of nursing.
- Apply best, current evidence into nursing practice to achieve desired outcomes.

**Degree Requirements**

To receive an Accelerated Degree Bachelor of Science in Nursing (BSN), students must complete at least 180 quarter units as articulated below, 45 of which must be completed in residence at National University, 76.5 of which must be completed at the upper-division level. Second degree students' general education requirements from the first degree are accepted in lieu of University General Education requirements. Students must meet the University's upper division and Diversity General Education requirements. Transfer credits may be accepted if the courses taken elsewhere are comparable to the required courses listed below. Students should refer to the section on undergraduate admission procedures for specific information on admission and evaluation. The following courses are specific degree requirements.

Effective for any student enrolling at the institution as of March 1, 2014.

**NSG 414** Nursing Leadership (3 quarter units)
  Corequisite: NSG 414A

**NSG 414A** Nursing Leadership Practicum (1.5 quarter units)
  Corequisite: NSG 414

**NSG 445** Quality Improvement/Proj Mgmt
  Prerequisite: BST 322, NSG 332

**NSG 450** Medical Surgical Nursing III
  Prerequisite: NSG 445 with a minimum grade of C
  Corequisite: NSG 450A

**NSG 450A** Med Surgical Nursing III Lab
  Prerequisite: NSG 445 with a minimum grade of C
  Corequisite: NSG 450
The Bachelor of Science in Nursing (BSN) program provides the foundation for professional nursing practice as a beginning generalist clinician who provides care to individuals, families, communities and populations. The baccalaureate degree prepares nurses for leadership in providing direct care and collaborating within care teams that work to improve the quality and safety of health care. Graduates are eligible to take the professional licensure exam (NCLEX) to earn a State license to practice as a Registered Nurse (RN).

Program Learning Outcomes
Upon successful completion of this program, students will be able to:

- Develop caring, therapeutic nursing relationships with individuals, families and groups.
- Provide safe, high quality, culturally competent, patient-centered nursing care for individuals across the life span in a variety of settings.
- Participate in the continuous improvement of nursing care quality and safety.
- Use nursing judgment to manage, prioritize, and delegate patient care in a variety of health care settings.
- Effectively communicate and collaborate with patients and the interdisciplinary team.
- Demonstrate professional identity by incorporating established standards of practice within the legal and ethical framework of nursing.
- Apply best, current evidence into nursing practice to achieve desired outcomes.

Degree Requirements
To receive a Bachelor of Science in Nursing (BSN), students must complete at least 184.5 quarter units as articulated below, 45 of which must be completed in residence at National University, 76.5 of which must be completed at the upper-division level, and the University General Education requirements. In the absence of transfer credit, additional general electives may be necessary to satisfy total units for the degree. The following courses are specific degree requirements.

Effective for any student enrolling at the institution as of March 1, 2014.

Required General Education Preparation
The following areas of General Education must be completed prior to beginning any preparation for the Major or Nursing Major core coursework: Area A1, A2, B, C, D, E, F, and G.

AREA A: ENGLISH COMMUNICATION
(15 quarter units)

Category 1: Writing
(10.5 quarter units required)

ENG 100  Effective College English I (3 quarter units)
Prerequisite: Satisfactory performance on Accuplacer

ENG 101  Effective College English II (3 quarter units)
Prerequisite: ENG 100

ENG 240  Advanced Composition
Prerequisite: ENG 100, and ENG 101

Category 2: Speech and Communication
(4.5 quarter units required)

COM 103  Public Speaking

AREA B: MATHEMATICAL CONCEPTS AND QUANTITATIVE REASONING
(4.5 quarter units)

MTH 204  Mathematics for Science
Prerequisite: MTH 12A and MTH 12B of Accuplacer test placement evaluation

AREA C: INFORMATION LITERACY AND TECHNOLOGY
(4.5 quarter units)

ILR 260  Information Literacy
Prerequisite: ENG 100, and ENG 101

AREA D: ARTS AND HUMANITIES
(4.5 quarter units)

PHL 337  Ethics
Prerequisite: ENG 100, and ENG 101

AREA E: SOCIAL AND BEHAVIORAL SCIENCES
(9 quarter units)

PSY 100  Introduction to Psychology

SOC 350+  Cultural Diversity
Prerequisite: ENG 100, and ENG 101

+Diversity Enriched Offering

AREA F: PHYSICAL AND BIOLOGICAL SCIENCES
(24 quarter units required in Nursing)

BIO 201  Human Anatomy & Physiol I
Recommended: Prior completion of: BIO 100, BIO 100A, CHE 101, CHE 101A or equivalent courses.

BIO 201A  Human Anatomy & Physiol Lab I (1.5 quarter units)
Prerequisite: BIO 201

BIO 202  Human Anatomy & Physiol II
Recommended: Prior completion of: BIO 201, and BIO 201A, BIO 100, and BIO 100A, CHE 101, and CHE 101A or equivalent

BIO 202A  Human Anatomy & Physiol Lab II (1.5 quarter units)
Prerequisite: BIO 202

BIO 203  Introductory Microbiology
Recommended: Prior completion of: BIO 201, and BIO 201A, BIO 202, and BIO 202A, BIO 100, and BIO 100A, CHE 101, and CHE 101A or equivalent courses

BIO 203A  Introductory Microbiology Lab (1.5 quarter units)
Prerequisite: BIO 203

CHE 101  Introductory Chemistry
Recommended Preparation: MTH 204, or MTH 215, or MTH 216A and MTH 216B

CHE 101A  Introductory Chemistry Lab (1.5 quarter units)
Prerequisite: CHE 101, or CHE 141 for science majors
AREA G: LIFELONG LEARNING AND SELF DEVELOPMENT
(4.5 quarter units)
COH 317 Public Health Nutrition

ARE A-G: GENERAL EDUCATION
(4.5 quarter units)

Preparation for the Major
(3 courses; 13.5 quarter units)
BST 322 Intro to Biomedical Statistics
NSG 280 Human Lifecycle Development
Prerequisite: ENG 100, ENG 101, PSY 100
HTM 310 Health Informatics

Nursing Core Courses
(27 courses; 100.5 quarter units)
NSG 302 Professional Nursing Issues
Prerequisite: Admission into the Bachelor of Science in Nursing or have a LVN/LPN License. For Generic BSN Students, completion of all non-nursing courses is required to enroll in this course
NSG 211 Health Assessment (3 quarter units)
Prerequisite: NSG 302 with a minimum grade of C
Corequisite: NSG 211A with a minimum grade of S
NSG 211A Health Assessment Lab (1.5 quarter units)
Prerequisite: NSG 302 with a minimum grade of C
Corequisite: NSG 211
NSG 230A Patho/Pharm I A
Prerequisite: NSG 211, NSG 211A
NSG 200 Foundations of Nursing
Prerequisite: NSG 211 with a minimum grade of C
and, NSG 211A with a minimum grade of S
Corequisite: NSG 200A
NSG 200A Foundations Clinical Lab
Prerequisite: NSG 211 with a minimum grade of C,
NSG 211A with a minimum grade of S
Corequisite: NSG 200
NSG 215 Gerontological Nursing (3 quarter units)
Prerequisite: NSG 200 with a minimum grade of C,
and NSG 200A with a minimum grade of S, or
LVN/LPN License
Corequisite: NSG 215A
NSG 215A Gerontological Nsg Lab (1.5 quarter units)
Prerequisite: NSG 200 with a minimum grade of C,
and NSG 200A with a minimum grade of S, or
LVN/LPN License
Corequisite: NSG 215
NSG 332 Evidence-Based Practice
Prerequisite: BST 322
NSG 205 Medical-Surgical Nursing I
Prerequisite: NSG 215 with a minimum grade of C,
and NSG 215A with a minimum grade of S
Corequisite: NSG 205A with a minimum grade of S
NSG 205A Medical-Surgical I Lab
Prerequisite: NSG 215 with a minimum grade of C,
and NSG 215A with a minimum grade of C
Corequisite: NSG 205 with a minimum grade of C
NSG 330 Patho/Pharm II
Prerequisite: NSG 230A with a minimum grade of C,
and NSG 230B with a minimum grade of S
NSG 320 Medical-Surgical Nursing II
Prerequisite: NSG 205 with a minimum grade of C,
and NSG 205A with a minimum grade of S, or
LVN/LPN License
Corequisite: NSG 320A
NSG 320A Medical-Surgical II Lab
Prerequisite: NSG 205 with a minimum grade of C,
and NSG 205A with a minimum grade of S, or
LVN/LPN License
Corequisite: NSG 320
NSG 326 Psychosocial Nursing
Prerequisite: NSG 320 with a minimum grade of C,
or LVN/LPN License
Corequisite: NSG 326A
NSG 326A Psychosocial Nursing Lab (3 quarter units)
Prerequisite: NSG 330 with a minimum grade of C,
or LVN/LPN License
Corequisite: NSG 326
NSG 336 Child-Bearing Family (3 quarter units)
Prerequisite: NSG 326 with a minimum grade of C,
and NSG 326A with a minimum grade of S
Corequisite: NSG 336A
NSG 336A Child-Bearing Family Lab (3 quarter units)
Prerequisite: NSG 326 with a minimum grade of C,
and NSG 326A with a minimum grade of S
Corequisite: NSG 336
NSG 335 Pediatric Nursing (3 quarter units)
Prerequisite: NSG 336 with a minimum grade of C,
and NSG 336A with a minimum grade of S
Corequisite: NSG 335A
NSG 335A Pediatric Nursing Lab (3 quarter units)
Prerequisite: NSG 336 with a minimum grade of C,
and NSG 336A with a minimum grade of S
Corequisite: NSG 335
NSG 413 Population Based Nursing (6 quarter units)
Corequisite: NSG 413A
NSG 413A Population Based Nursing Lab (3 quarter units)
Corequisite: NSG 413
NSG 414 Nursing Leadership (3 quarter units)
Corequisite: NSG 414A
NSG 414A Nursing Leadership Practicum (1.5 quarter units)
Corequisite: NSG 414
NSG 445 Quality Improvement/Proj Mgmt
Prerequisite: BST 322, NSG 332
NSG 450 Medical Surgical Nursing III
Prerequisite: NSG 445 with a minimum grade of C
Corequisite: NSG 450A
NSG 450A Med Surgical Nursing III Lab
Prerequisite: NSG 445 with a minimum grade of C
Corequisite: NSG 450
The goal of the Master of Arts in Digital Journalism is to prepare learners to become dynamic new media professionals capable of using emerging technologies to generate, create and disseminate news and analysis in a competitive, fast-moving global information environment. The changing nature of 21st century journalism requires professionals who are ready to answer the call for more highly skilled news and communication practitioners in the 24-hour information-on-demand cycle. The program covers theoretical and practical approaches to news coverage and packaging and contemporary business and marketing models relevant to news organizations.

The entire program is offered online with coursework that marries non-traditional multimedia skills with professional journalistic practices, legal underpinnings and the ethics of traditional journalistic practice. Other classes include computer-assisted reporting, the business of journalism, producing online publications, investigative reporting and international reporting. In the capstone, students will be matched with mentors in professional media and communication fields based upon their interests. Students also create an electronic portfolio designed to help them gain employment and build their career as a professional journalist.

Graduates will acquire a host of intellectual, managerial and journalistic skills including: an understanding of emerging media business models; the ability to create original enterprise projects about public issues, events and individuals; the knowledge to engage in public journalism by conducting polling, interviewing and interactive audience research; the training to develop, implement and evaluate appropriate strategies of investigative journalism using the Web for both research and presentation; and professional instruction in the foundations of shoe-leather journalism, as well as story-generation and reporting.

Applicants must already possess a Bachelor of Arts degree and should be able to write in English at an advanced level, and be flexible enough to learn the latest technological skills that new media professionals need to survive. Applicants must prove basic competency in digital video and audio skills or take JRN 502, Essential Digital Competencies prior to JRN 610 Backpack Digital Audio & Video. If a student’s writing skills need improvement, he or she may be required to enroll in a remedial writing class before continuing in the program. Applicants for whom English is a second language are encouraged to take the Accuplacer English test. Contact the program lead faculty for more information.
speak to the Faculty Advisor regarding the requirements needed to submit a waiver.

**Core Requirements**
(14 courses; 63 quarter units)

JRN 600  The New News

JRN 605  Advanced Non-Fiction Writing

JRN 610  Backpack Digital Audio & Video
   *Prerequisite: JRN 502*

JRN 615  International Reporting

JRN 620  Online Publishing

JRN 630  Professional Editing

JRN 640  Emerging News Business Models

JRN 645  Marketing the News

JRN 650  Computer-Assisted Research

JRN 655  Communication Law

JRN 656  Ethics in the New Media World

JRN 660  Investigative Methods

JRN 670  Producing Enterprise Projects

JRN 680  Capstone Project
BIO 169A - General Biology Lab
Prerequisite: BIO 161, BIO 162, BIO 163
Laboratory course in general biology intended for science majors. Topics include the application of the scientific method, examination of cellular processes (e.g., respiration, photosynthesis, mitosis, meiosis), Mendelian genetics, operation of basic laboratory equipment, taxonomic classification, and investigations of structure and function of prokaryotes, protists, fungi, plants, and animals.

BIO 305 - Genetics
Prerequisite: BIO 161, BIO 162, BIO 163, BIO 169A, CHE 141, CHE 142, CHE 143, HE 149A
Principles of genetics and heredity. Topics include DNA replication and repair, gene expression and regulation, inheritance of traits, genetic engineering, relationship of genetics to human health, and application of genetics to understanding the evolution of species.

BIO 310 - Evolution
Prerequisite: BIO 161, BIO 162, BIO 163, BIO 169A
Evolutionary biology. Topics include the history of life, fossil record, causes of microevolution (including natural selection and mutation), macroevolutionary processes (including specialization and extinction), evolutionary genetics and developmental biology ("evo-devo"), phylogeny construction and taxonomy.

BIO 406 - Cellular Biology
Prerequisite: BIO 161, BIO 162, BIO 163, BIO 169A, CHE 141, CHE 142, CHE 143, CHE 149A
A study of the relationship of plants and animals to their environment and to one another. Emphasizes populations, the population-community interface and community structure and interactions within the ecosystem.

BIO 406A - Cellular Biology Lab
Prerequisite: BIO 161, BIO 162, BIO 163, BIO 169A, CHE 141, CHE 142, CHE 143, CHE 149A
Corequisite: BIO 406
This course emphasizes techniques essential to cellular biology, including cell culturing, protein extraction, and western blots.

BIO 407 - Molecular Biology
Prerequisite: BIO 161, BIO 162, BIO 163, BIO 169A, CHE 141, CHE 142, CHE 143, CHE 149A
Corequisite: BIO 407A
An introduction to molecular biology focusing on gene structure, organization, regulation and expression. Topics in genetic engineering and genome evolution are covered, as well as DNA replication, recombination, transcription and post-transcriptional mechanisms in both eukaryotic and prokaryotic cells.

BIO 407A - Molecular Biology Lab
Prerequisite: BIO 161, BIO 162, BIO 163, BIO 169A, CHE 141, CHE 142, CHE 143, CHE 149A
Corequisite: BIO 407
This course emphasizes techniques essential to molecular biology including DNA extraction, purification and quantification; polymerase chain reactions; and restriction enzyme digestion.

BIO 414 - Invertebrate Zoology
Prerequisite: BIO 161, BIO 162, BIO 163, BIO 169A, CHE 141, CHE 142, CHE 143, CHE 149A
Corequisite: BIO 414A
Comparative study of invertebrates: taxonomy, structure, physiology, reproduction, evolution, and behavior.

BIO 416 - Vertebrate Zoology
Prerequisite: BIO 161, BIO 162, BIO 163, BIO 169A, CHE 141, CHE 142, CHE 143, CHE 149A
Corequisite: BIO 416A
Study of the life of Vertebrates integrating the anatomy, physiology, ecology, evolution and behavioral adaptations that enable them to survive effectively in their natural environment.

BIO 440 - Botany
Prerequisite: BIO 161, BIO 162, BIO 163, BIO 169A, CHE 141, CHE 142, CHE 143, CHE 149A
Plant biology, including structure, function, evolution, taxonomy, and diversity of major groups of plants.
in advanced chemistry laboratory techniques, will learn how to operate modern instruments, will acquire the necessary skills to collect data accurately and to perform error analyses.

CHE 150 Introductory Organic Chemistry

Prerequisite: CHE 101 and CHE 101A or CHE 141 and CHE 142 and CHE 143 and CHE 149A

Introduction to the fundamentals of organic chemistry. This course covers the properties and reactions of hydrocarbons and their functional groups, aromatic compounds, and biological molecules. Special efforts are made in demonstrating the interrelationship between organic chemistry and other areas of science, particularly biological, health, and environmental sciences.

CHE 350A Organic Chemistry I Lab (1.5 quarter units)

Prerequisite: CHE 350 with a minimum grade of C

Students will learn how to apply common laboratory techniques to determine the structure and the chemical properties of alkanes, alkenes, alcohols, alkyl halides, acids and esters. The experiments will be done on a small scale or at a microscale. Contact hours for this laboratory course (45) are based on a 3:1 ratio, i.e. 3 Lab hours = 1 lecture hour equivalent.

CHE 351A Organic Chemistry II Lab (1.5 quarter units)

Prerequisite: CHE 351 with a minimum grade of C

Recommended: Prior completion of CHE 350A with a minimum grade of C

Students will apply laboratory techniques learned in CHE350A to synthesize, purify and identify organic compounds including alcohols, aldehydes, aromatics, ketones, ethers, esters, amides and amines. The experiments will be done on a small scale approach or at a microscale. Contact hours for this laboratory course (45) are based on a 3:1 ratio, i.e. 3 Lab hours = 1 lecture hour equivalent.

CIS 422 - IT Infrastructure

Prerequisite: CIS 421

An introduction to IT infrastructure issues for students majoring in Information Systems. It covers topics related to both computer and systems architecture and communication networks, with an overall focus on the services and capabilities that IT infrastructure solutions enable in an organizational context. It also prepares the students for organizational roles that require interaction with external vendors of IT infrastructure components and solutions. The course focuses strongly on Internet-based solutions, computer and network security, business continuity, and the role of infrastructure in regulatory compliance.

CIS 423 - IS Strategy, Mgt & Acquisition

Prerequisite: CIS 422

This course takes a management perspective in exploring the acquisition, development and implementation of plans and policies to achieve efficient and effective information systems. Students will address topics relating to defining the IS infrastructure and the systems that support the operational and strategic needs of the organization. The course examines developing a framework that will allow leaders of organizations to assess existing IS infrastructures and emerging technologies as well as how these technologies affect organizational strategy.

COH 500 Global Health Experience

Exploration of the healthcare system and public health issues facing global communities. Tour location and experience the healthcare, economic, political, legal, and cultural environment of a host country. Development of thorough knowledge of global public health through combination of pre-departure study, on-site lectures and presentations by host country experts and healthcare leaders, post-tour analysis and reflection.

EDT 695 Capstone Project

EDT 695 is the final class in the MS in Educational and Instructional Technology program. Under the supervision of a faculty member, students complete a Capstone Project and accompanying report. This course is two months long. Students meet weekly via voice/web with a faculty supervisor. Grading is by H, S, or U only. Course is eligible for an "IP" grade.

ENM 607A Capstone Course I

Prerequisite: All core classes in program.

Focus on the application of application of engineering processes learned through this program. Working in teams or as individuals under the guidance of their assigned faculty advisor, students select a research topic, and gather data. The duration of this course is one month. This is the first part of two course series that each student has to complete sequentially. Grading is H, S, or U only.

ENM 607B Capstone Course II

Prerequisite: ENM 607A

Continuation of ENM 607A project course. Specific focus is on the analysis of the data collected including problem solutions. Students present their research in both written and oral form to the client organization, if applicable, and to other students and faculty. The duration is two months. This is the second part of two course series that each student has to complete sequentially. Failure to complete this second course successfully require students to repeat ENM607A and ENM607B again. Grading is H, S, or U only. Course is eligible for In Progress (IP) grade.

FFL 100 Foundation to Academic Success

The course is designed to help students meet college expectations and achieve their academic goals. Students will be introduced to the information, skills, and attitudes necessary for college success and lifelong learning and development. Focus will be on strategies for academic success, including time management, study skills, effective test taking, and participating in a scholarly community.

JRN 495 Capstone Project in Journalism

Prerequisite: JRN 310, JRN 330, JRN 335, JRN 340 or JRN 430, JRN 431, JRN 315

In this capstone course, students have a choice of producing a capstone project or engaging in an internship in the community where they live. Students in both cases must apply the knowledge and skills gained in other journalism courses to perform the following types of activities: • Write news stories • Produce news packages • Shoot videos for news or public affairs programs • Conduct interviews • Conduct research on current affairs or breaking news developments • Collect audio recordings for news or public affairs programs • Generate story ideas concepts for a newsroom • Participate in news meetings with editors, staff writers and/or producers All students must work with the program lead faculty in advance of the course to identify their area of interest. Students who elect the capstone project work with their capstone advisor to construct a long-form feature, investigatory news article (2,000 word minimum) suitable for a newsmagazine or online serial publication.
Video or radio projects may also be proposed. Students who choose the internship must work for no less than one month as apprentice journalists in a journalistic environment such as a newspaper, broadcast or web-based newsroom or multimedia facility. All students must produce a capstone portfolio consisting of their best work from this and previous courses and a reflective essay on the internship or project. Grading is by H, S, or U only.

JRN 645 Marketing the News

Exploration of the mechanisms of how newscasters achieve confidence and integrity in the public eye; the way stories are presented as “unbiased, impartial, honest, and fair”; and what factors contribute to this implied relationship between newscaster and audience.

LIT – Literature

LIT 311 British Literature I
Prerequisite: ENG 240 and LIT 100
A survey of important British authors and literary trends from Chaucer through the middle of the 18th century.

LIT 312 British Literature II
Prerequisite: ENG 240 and LIT 100
A survey of important British authors and literary trends from the late 18th century through the modern era, with a focus on Romantic, Victorian and Modernist writers and texts. Some attention will also be paid to colonial and post-colonial writing in English.

LIT 321 American Literature I
Prerequisite: ENG 240 and LIT 100
A survey of important American authors and literary trends from the late 19th century through the 20th. Texts will be situated in relation to cultural, philosophical, social and historical contexts, e.g., Puritanism and its legacies, varieties of American Romanticism, debates over slavery and gender roles, formation of national identities.

LIT 322 American Literature II
Prerequisite: ENG 240 and LIT 100
A survey of important American authors and literary trends from the late 19th century through the present. Texts will be situated in relation to cultural, philosophical, social and historical contexts. Particular attention will be paid to the modernist canon and to works by women and authors of color that respond to American literary heritage and social conditions.

LIT 338 Shakespeare
Prerequisite: ENG 240 and LIT 100
An examination of major works of William Shakespeare.

LIT 345 Mythology
Prerequisite: ENG 240 and LIT 100
An examination of mythology. This course recognizes that myth-making is a creative activity central to all cultures, including our own society. Students analyze and compare mythological narratives from a variety of cultures.

LIT 360 Literary Theory
Prerequisite: ENG 240 and LIT 100
A survey of major classical and contemporary arguments about the nature of literature, literary expression, and literary experience.

LIT 401 Contemporary Fiction
Prerequisite: ENG 240 and LIT 100
An upper-level seminar in contemporary fiction. Students will discuss and analyze major genres and movements in contemporary fiction, focusing on American fiction. Students will situate contemporary fiction in current political, cultural, historical and philosophical trends to better understand the relationship between fiction and the contemporary world.

LIT 402 Contemporary Poetry
Prerequisite: ENG 240 and LIT 100
A survey of important authors, movements, trends, and critical stances in contemporary poetry, with an emphasis on American poetry.

LIT 430 Children's Literature
Prerequisite: ENG 240 and LIT 100
Provides students with a foundation for teaching children to read and learn through reading. Students learn to identify the stages in reading development, select appropriate literary texts for diverse learners at each stage, analyze children's literary texts, and assess the literacy and language development of young learners.

LIT 443 World of the Short Story
Prerequisite: ENG 240 and LIT 100
A look at short stories. The reading list includes varieties of form and style in short fiction drawn from world literature and focuses on contemporary writing.

LIT 446 Studies in Poetry
Prerequisite: ENG 240 and LIT 100
Focused study of a particular theme, genre, period, or author.

LIT 450 Studies in the Novel
Prerequisite: ENG 240 and LIT 100
Focused study of a particular theme, genre, period, or author.

LIT 456: Studies in Drama
Prerequisite: ENG 240 and LIT 100
An examination of the conventions and varieties of dramatic texts and performance, focusing on drama of the 20th century. Includes discussion of both Western and non-Western traditions.

LIT 460 Gender and Literature
Prerequisite: ENG 240 and LIT 100
A study of the representations of gender in literature to better understand changing literary aesthetics. Discusses assumptions about the ways gender permeates language and discourse.

LIT 480 Literature of the Americas
Prerequisite: ENG 240 and LIT 100
This course will provide students with a hemispheric perspective to the study of the literatures of the Americas. The readings will come from a variety of prominent 20th century U.S. and Latin American literary texts. All works will be read in English translation.

MAT – Master of Arts in Teaching

MAT 620 Multidimensional Education
Examination of the interconnection between geography, politics, history, and economic development in major regions of the world within a global context assessing the impact of these factors on education with specific emphasis on the U.S. educational system.

MAT 621 Impact of Culture & Language
Prerequisite: MAT 620
Students will develop an understanding of the ways in which cultural, religious and linguistic factors affect countries’ choices of educational systems and educational priorities. The main focus of the course is the impact of these factors on education within global, regional and national contexts. Students will compare the impact of these factors on education in selected world regions with their influence on the U.S. educational system and some of the issues they face in classrooms.

MAT 622 Comparative Ed Systems
Prerequisite: MAT 621
Examination of the national and regional educational systems, approaches and theories, identify global trends, and theorize on a prospective system of education for the 21st century US school. Students will develop a comparative perspective of international educational ideas, traditions and systems and their relationships with U.S. education. Course investigates structure and organization of national educational systems, societal attitudes towards education, teacher preparation, instructional methodologies, student behaviors, collaboration with family and community.

MAT 623 Transformative Ed Practices
Prerequisite: MAT 622
Evaluation of current national and international developments in education and future challenges. Students will investigate global trends in education based on the analysis of factors affecting educational systems in individual nations and groups of countries, and synthesize them to develop a research-based, consistent and systematic understanding of 21st century education. This study will help formulate the most advanced, innovative and effective approaches for transforming US
sustainability. This course will have two options, one to travel overseas to a selected country to study education first hand, and the other to conduct research in the student’s area through interviewing international students and faculty about their educational systems. This course will conclude with the project demonstrating an application of innovative global education ideas in the student’s school.

MKT - Marketing

MKT 430 Intro to Global Marketing
Prerequisite: MKT 302A
An introduction to the cultural environment of global markets, including such topics as cultural dynamics, management styles, and political and legal environments. Students learn to assess global marketing opportunities as well as develop and implement strategies to capitalize on those opportunities.

MKT 480 Marketing Project
Prerequisite: Completion of 31.5 quarter units of upper-division core requirements and MKT 302A
A synthesis of the marketing knowledge gained in the undergraduate program as expressed through a professional research- or internship experience-based writing project overseen by a faculty member. Grading is S/U.

MKT 651 Mobile Marketing
Prerequisite: MKT 602
This course covers how mobile marketing is defining business today, including strategy, tracking ROI, advertising, applications and mobile websites. From text messaging to QR codes, consumer interactions with mobile devices, and the laws and ethics of mobile marketing are explored in this course.

MKT 653 Social Media
Prerequisite: MKT 602
This course gives a foundation to the practical business applications of social media in a marketing world. Through Facebook, LinkedIn, blogs, YouTube, Pinterest and other platforms, students discover that social media is far more than just making friends and that there are now only a few degrees of separation globally. Students learn that social media is about marketing at the right time, place and with the right message for existing as well as prospective customers with both legal and ethical behaviors.

MKT 660: Strategic Marketing Simulation
Prerequisite: MKT 602, MKT 620, MKT 631 and MKT 634
Students will participate in a group simulation activity and will have hands on “live” experience, making strategic marketing decisions that affect the business viability. Students master the marketing concepts of production, channels of distribution, branding, promotion, segmentation, targeting, pricing and competition as they make decisions that affect the future profitability of the business entity.

MUL - Digital Entertainment and Interactive Arts

MUL 365 Digital Video Editing
Hands-on experience in advanced nonlinear editing. Assess the aesthetic impact of editing decisions and demonstrate proficiency with timing, continuity, music cues, transitions, and the use of color. Focus is placed on the role of editing as means of showing a compelling story.

NSG - Nursing

NSG 200: Foundations of Nursing
Prerequisite: NSG 211 with a minimum grade of C and NSG 211A with a minimum grade of S.
Corequisite: NSG 200A
The beginning concepts of safe patient-centered care in a variety of healthcare settings are discussed. Communication skills, professional behaviors, and application of the nursing process are presented. Focus on the use of evidence-based practice and professional identity.

NSG 200A: Foundations Clinical Lab
Prerequisite: NSG 211 with a minimum grade of C and NSG 211A with a minimum grade of S.
Corequisite: NSG 200
Students are introduced to a variety of healthcare settings, with the focus on providing safe patient-centered care to a minimum of one patient. Students will use therapeutic communication skills, develop professional behaviors and apply the nursing process using current evidence, legal standards, and ethical principles. Grading is by S or U only.

NSG 205: Medical-Surgical Nursing I
Prerequisite: NSG 215 with a minimum grade of C and NSG 215A with a minimum grade of S.
Corequisite: NSG 205A
Introduction to the safe, patient-centered care of adult medical-surgical patients. An emphasis is placed on the utilization of the nursing process and evidence based practice when caring for patients with common problems that have predictable outcomes in a variety of health care settings. Concurrent enrollment in NSG 205A is required.

NSG 205A: Medical-Surgical I Lab
Prerequisite: NSG 215 with a minimum grade of C and NSG 215A with a minimum grade of S.
Corequisite: NSG 205
Practical application of the nursing process, integrating basic foundations of nursing practice, and providing safe patient-centered care based on clinical judgment for the adult experiencing commonly occurring medical-surgical conditions. The student will use current evidence while providing care for 1-2 patients in a variety of health care settings. Grading is S or U only.

NSG 211: Health Assessment (3 quarter units)
Prerequisite: NSG 302 with a minimum grade of C.
Corequisite: NSG 211A
Introduction to foundational concepts of health assessment to systematically gather and analyze data using a patient-centered care approach. Concepts include obtaining a health-history, using therapeutic interviewing skills, performing a comprehensive head-to-toe and problem-focused physical exam, the sociocultural influence, and application of related current evidence. This course is 30 contact hours.

NSG 211A: Health Assessment Lab (1.5 quarter units)
Prerequisite: NSG 302 with a minimum grade of C.
Corequisite: NSG 211
Practical application of a holistic patient-centered approach to health assessment as a basis for providing safe, quality nursing care. Students will practice the concepts learned in NSG 211A. Current evidence will be sought to demonstrate sociocultural variations on health assessment. Grading is S or U only.

NSG 215: Gerontological Nursing (3 quarter units)
Prerequisite: NSG 200 with a minimum grade of C and NSG 200A with a minimum grade of S, or a LVN/LPN License
Corequisite: NSG 215A
Physiological and psychosocial factors affecting the health of older adults will be emphasized. Health promotion and safe nursing care will be founded on evidence-based practice principles. Role of the professional nurse and interdisciplinary team in managing special health care issues of older adults is emphasized.

NSG 215A: Gerontological Nsg Lab (1.5 quarter units)
Prerequisite: NSG 200 with a minimum grade of C and NSG 200A with a minimum grade of S, or LVN/LPN License
Corequisite: NSG 215
Practical application of the nursing process to provide safe patient care and health promotion for older adults. Students will develop clinical judgment based on best practices to ensure culturally competent care. Emphasis on improving the quality of life and care for older adults in a variety of health care settings. Grading is S or U only.

NSG 230A: Patho/Pharm IA
Prerequisite: NSG 211 with a minimum grade of C and NSG 211A with a minimum grade of S
Nursing implications related to pharmacodynamics and pharmacokinetics for the safe use of drug therapy for adult patients are discussed. Prototype drugs for each classification will be used to illustrate...
drug actions, side effects, contraindications and precautions. The etiology, pathogenesis, clinical presentation, and pharmacological disease management will also be discussed.

NSG 280: Human Lifecycle Development
Prerequisite: ENG 100, ENG 101, PSY 100
Introduction to the physical, psychological, and social growth and changes affecting individuals during the stages of the lifecycle including infancy, childhood, adolescence, adulthood, and old age. Theoretical underpinnings and associated developmental tasks of each stage of the lifecycle are included. Application of health promotion concepts to growth and development, especially caregiving concepts, are emphasized.

NSG 302: Professional Nursing Issues
Admission into the Bachelor of Science in Nursing or have a LVN/LPN License. For Generic BSN Students, completion of all non-nursing courses is required to enroll in this course.
Introduction to nursing professional issues, including scope and standards of nursing practice, social policy in nursing, ethics, health care regulation and legal issues in professional practice. Students begin study of patient safety and holistic and patient-centered care concepts as they develop a professional identity.

NSG 320: Medical-Surgical Nursing II
Prerequisite: NSG 205 with a minimum grade of C and NSG 205A with a minimum grade of S, or LVN/LPN License
Corequisite: NSG 320A
Overview of the pathophysiology, nursing process and collaborative management of patients with co-morbid or complex health problems with unpredictable outcomes. Students learn concepts that continue the development of nursing judgment based on current evidence to provide safe, high-quality patient care. Concurrent enrollment in NSG 320A is required unless approved by the Department Chair.

NSG 320A: Medical-Surgical II Lab
Prerequisite: NSG 205 with a minimum grade of C and NSG 205A with a minimum grade of S, or LVN/LPN License
Corequisite: NSG 320
Practical application of the nursing process with increasing degree of skill. Emphasis is on advancing nursing judgment, refining professional identity, and continuing to provide sound evidence-based nursing care to adults with complex health problems. Students also apply concepts of delegation and supervision. Grading is S or U only.

NSG 326: Psychosocial Nursing
Prerequisite: NSG 320 with a minimum grade of C or LVN/LPN License
Corequisite: NSG 326A
Introduction to evidence-based concepts related to major psychiatric diagnoses that occur across the lifespan. The focus is using the nursing process to provide safe patient-centered care in a variety of care settings with commonly occurring mental health disorders. Emphasis is on mental health specific interventions, behavior management, and therapeutic communication.

NSG 326A: Psychosocial Nursing Lab
Prerequisite: NSG 330 with a minimum grade of C or LVN/LPN License
Corequisite: NSG 326
Practical application of the nursing process and integrate basic mental health concepts to provide safe, compassionate, collaborative care for patients with commonly occurring mental health illnesses in a variety of settings. Use of best evidence and therapeutic communication techniques for behavioral management in mental health will be emphasized. Grading S or U only.

NSG 330: Patho/Pharm II
Prerequisite: NSG 230A with a minimum grade of C
Continuing examination of the pharmacologic classifications commonly used for patients with multi-system, complex or emergent health problems. Prototype drugs will be used to illustrate drug actions, side effects, contraindications, precautions and nursing. Content will include etiology, pathogenesis, clinical presentation, and pharmacologic management.

NSG 335: Pediatric Nursing (3 quarter units)
Prerequisite: NSG 336 with a minimum grade of C and NSG 336A with a minimum grade of S.
Corequisite: NSG 335A
Examination of nursing care related to health needs of patients from infancy through adolescence and their families. Emphasis is placed on developing nursing judgment based on evidence to promote health and provide care for pediatric patients with common health variations related to behavioral, genetic, cultural, physiological, environmental, and developmental factors.

NSG 335A: Pediatric Nursing Lab (3 quarter units)
Prerequisite: NSG 336 with a minimum grade of C
Corequisite: NSG 335
Practical application of knowledge and skills required for nursing care children and their families. The students will care for the child and family as a unit, considering behavioral, developmental, physiological, cultural and environmental factors. Grading is S or U only.

NSG 336: Child-Bearing Family (3 quarter units)
Prerequisite: NSG 326 with a minimum grade of C and NSG 326A with a minimum grade of S.
Corequisite: NSG 336A
Introduction to the unique needs of reproductive families during preconception, perinatal, postpartum, and neonatal periods. Foci include the tasks of pregnancy, biophysical and psychosocial adaptation to pregnancy and childbirth. Emphasis on use of current evidence supporting nursing judgment, safe practice and culturally competent care of patients and families.

NSG 336A: Child-Bearing Family Lab (3 quarter units)
Prerequisite: NSG 326 with a minimum grade of C and NSG 326A with a minimum grade of S.
Corequisite: NSG 336
Practical application of nursing judgment and integration of obstetric nursing concepts to plan and provide safe, patient-centered, culturally competent care for clients and families. Students use current evidence to plan and implement individualized patient care. Grading is S or U only.

NSG 450: Medical Surgical Nursing III
Prerequisite: NSG 445 with a minimum grade of C.
Corequisite: NSG 450A
Continuing examination of the safe patient-centered care and collaborative management of patients with multi-system and complex healthcare needs. An emphasis is placed on refining the use of the nursing process and incorporating evidence based practice. NCLEX preparation and the capstone project are included.

NSG 450A: Med Surgical Nursing III Lab
Prerequisite: NSG 445 with a minimum grade of C.
Corequisite: NSG 450
Practical application of care for adult patients experiencing multi-system and complex medical conditions. The nursing process will be used to achieve best patient outcomes, grounded in evidence, which emphasize safety and prioritization of care through collaboration with other members of the health care team, patients, and their families. Grading is S or U only.
PSY 428 Developmental Psychology  
*Prerequisite: ENG 100, ENG 101 and PSY 100*  
A study of the major transitions from fetal development through death in the physical, cognitive, social and emotional domains. The impact of ethnic, gender and cultural factors on development will be examined.

PSY 611A Counseling Paradigms I  
*Prerequisite: Bachelor’s Degree in Psychology or PSY 501A and PSY 501B*  
This course provides an overview of major current and evolving paradigms of psychotherapy and how they influence counseling theory and practice. Students acquire core skills related to effective therapeutic communication and to the therapist's role in promoting exploration, insight, and behavior change.
