Ms. Amanda Johnson
Recruiting Coordinator
Database Corporation
1001 First Avenue
Sacramento, CA 95826

Dear Ms. Johnson:

I am writing in response to your advertisement for software engineers on the National University website. I am a recent graduate of National University with a Bachelor of Science degree in Software Engineering and I was drawn to the listing due to my strong interest in both software design and Database Corporation.

I am a computer enthusiast, always looking for new applications and ideas to implement on the computer. I believe my education and solid software programming will be an asset to your company.

I have worked with a CALMA system in developing VLSI circuits, and I also have substantial experience in the design of interactive CAD software. Because of this experience, I can make a direct and immediate contribution to your department. I have enclosed a copy of my resume, which details my qualifications and suggests how I might be of service to Database.

I would like very much like to meet with you to discuss your open positions for software engineers and how my qualifications can meet your needs.

Thank you for your time and consideration.

Sincerely yours,

Mike Smith
