SCHOOL OF ENGINEERING AND COMPUTING

BACHELOR OF SCIENCE IN CONSTRUCTION ENGINEERING TECHNOLOGY

Build a Solid Foundation in Construction Principles

The Construction Engineering Technology program at National University is designed to provide you with a well-rounded education in construction principles and practices and prepare you for a career in the construction industry. With this degree you’ll be prepared for careers such as construction superintendent, field engineer, project manager, project coordinator, facilities engineer, cost estimator, CAD drafter, or quality and safety controller.

You’ll learn to communicate about your trade through written, verbal, and graphical media and to use engineering science and mathematics to solve construction problems. Importantly, you’ll have an understanding of potential ethical issues that could arise and learn how to apply sound professional standards for making tough decisions.

Program highlights:
- Entire program can be completed online
- Use technology to address engineering problems
- Apply modern methods for surveying and metrics
- Build a foundation in mechanical and electrical systems
- Become proficient in cost estimating and scheduling
- Learn field inspection techniques and safety standards
- Apply the principles of project management
- Establish yourself as an important member of a building team

NATIONAL UNIVERSITY

Veteran Founded. Nonprofit.  I  NU.EDU
MAJOR IN CONSTRUCTION ENGINEERING TECHNOLOGY

Academic Program Director: Dirk Epperson; (858) 309-3474; depperson@nu.edu

The Construction Engineering Technology program provides students with a well-rounded education in construction principles and practices in preparation for a career in the construction industry. Upon completion of this degree, students will be prepared for careers such as construction superintendent, field engineer, project coordinator, facilities engineer, cost estimator, CAD drafter, and quality and safety controller. Additionally, graduates of this program with experience, interest, and/or knowledge about specific construction trades will be capable of performing in a large number of positions within those respective subcontracting firms.

Program Learning Outcomes

Upon successful completion of this program, students will be able to:

- Effectively communicate through written, verbal, and graphical media.
- Demonstrate knowledge of engineering science and mathematics and its application in problem solving.
- Analyze structural systems.
- Recognize ethical issues and apply professional standards in decision-making.
- Utilize appropriate computer tools for engineering problems.
- Apply modern methods for surveying and metrics.
- Exhibit a fundamental understanding of building mechanical and electrical systems.
- Demonstrate cost estimating and scheduling techniques.
- Integrate and apply field inspection techniques and safety standards.
- Apply the principles of project management and control.
- Work effectively in a team environment.

Degree Requirements

To receive a Bachelor of Science in Construction Engineering Technology, students must complete at least 180 quarter units to include a minimum of 70.5 units of the University General Education requirements; 76.5 units must be completed at the upper-division level and 45 units must be taken in residence, including the capstone project classes. In the absence of transfer credit, students may need to take additional general electives to satisfy the total units for the degree. Students should refer to the section on undergraduate admission procedures for specific information on admission and evaluation. All students receiving an undergraduate degree in Nevada are required by state law to complete a course in Nevada Constitution.

Preparation for the Major

(10 courses; 39 quarter units)

MTH 215 * College Algebra & Trigonometry
Prerequisite: Accuplacer text placement evaluation or MTH 12A and MTH 12B

PHS 104 * Introductory Physics
Prerequisite: 2 years of high school algebra and MTH 204 or MTH 215 or MTH 216A and MTH 216B

PHS 104A * Introductory Physics Lab (1.5 quarter units)
Prerequisite: PHS 104 or PHS 171 for science majors

OR

PHS 130A ^ Physics Lab for Engineering (1.5 quarter units)

CHE 101 * Introductory Chemistry
Recommended Preparation: MTH 204 or MTH 215 or MTH 216A and MTH 216B

CHE 101A * Introductory Chemistry Lab (1.5 quarter units)
Prerequisite: CHE 101 or CHE 141 for science majors

OR

CHE 120A ^ Intro to Chemistry Lab for Eng (1.5 quarter units)
Prerequisite: CHE 101

CSC 208 * Calculus for Comp. Science I
Prerequisite: MTH 215

CSC 220 Applied Probability & Stats.
Prerequisite: MTH 215

EGR 220 Engineering Mathematics
Prerequisite: MTH 215

EGR 225 Statics & Strength of Material
Prerequisite: EGR 220

EGR 219 Intro to Graphics and Auto CAD
Prerequisite: MTH 215

^ For online students only
* May be used to meet a General Education requirement.

Requirements for the Major

(15 courses; 64.5 quarter units)

EGR 310 Engineering Economics
Prerequisite: MTH 215

EGR 320 Scientific Problem Solving
Prerequisite: CSC 208 or EGR 220

EGR 320L Scientific Problem Solving-LAB (1.5 quarter units)
Prerequisite: EGR 320

EGR 316 Legal Aspects of Engineering
Prerequisite: EGR 219

DEN 308 Computer Aided Engineering I
Prerequisite: EGR 219

CEN 320 Surveying, Metrics and GIS
Prerequisite: EGR 219

CEN 323 Structural Analysis
Prerequisite: EGR 220 and EGR 225

CEN 325 Soil Mechanics and Foundation
Prerequisite: CEN 323

CEN 410 Constr. Materials and Methods
Prerequisite: MTH 215

CEN 413 Plans and Specifications
Prerequisite: EGR 219

CEN 416 Mech. and Electrical Systems
Prerequisite: MTH 215

CEN 419 Est., Scheduling and Control
Prerequisite: CEN 410

EGR 440 Project Management Fundamental

CEN 420 Est., Scheduling & Control II
Prerequisite: CEN 419

CEN 422 Field Inspection and Safety
Prerequisite: CEN 410

Construction Senior Project

(3 courses; 13.5 quarter units)

CEN 486A Construction Senior Project I
Prerequisite: Completion of 10 core courses in construction program.

CEN 486B Construction Senior Project II
Prerequisite: CEN 486A

CEN 486C Construction Senior Project III
Prerequisite: CEN 486B

For complete program information, see the National University Catalog 82, effective 10/2018.
