

INTERESTED IN A BS OR MS DEGREE IN CYBERSECURITY?

In partnership with the California Community Colleges (CCC), National University has developed academic pathways that build upon the coursework at community colleges to help you reach your academic goals.

HERE'S HOW ACADEMIC PATHWAYS WORK:

Step 1) Review your California community college's cybersecurity degree offerings.

Step 2) Complete either IGETC or CSU breadth general education certification and recommended cybersecurity curriculum at a California community college.

Step 3) Submit your CCC transcripts and apply to National University's Bachelor of Science in Cybersecurity program.

National University has developed degree pathway maps for the California community colleges currently offering associate degrees in cybersecurity.

If your CCC has developed a cybersecurity program recently and you would like National University to review curriculum, please contact **Bill Reid** at wreid2@nu.edu or **Chris Simpson** at csimpson@nu.edu.

**NATIONAL
UNIVERSITY**

Veteran Founded. Nonprofit.
