# HEALTH CARE ADMINISTRATION AND COMMUNITY HEALTH

## Build Leadership Skills While Improving Community Health

National University System offers degree programs related to health care administration and community health at each of our affiliates – National University, City University of Seattle, and Northcentral University.

Whether you're seeking to enter the workforce or advance in your career, our programs will prepare you for employment in a wide range of settings, including health and government agencies, such as hospitals, health systems, community organizations, medical care service providers, state, local, and federal government, and business and industry. You will also be well prepared to continue your education.

## LEARN MORE ABOUT

National University System, our affiliate institutions, and our programs by visiting [NUSystem.org](https://www.nusystem.org).

## Key Program Highlights:

- Develop and hone your skills related to accounting, law, financial analysis, human resource management, operations analysis, management, information systems analysis, strategic planning, and marketing
- Learn to apply traditional business skills to health care and public health administration
- Use research to address current issues and support decision making
- Understand the factors that affect policies, management, and operations
- Learn to analyze data and information to support effective decision making
- Solve complex health care and public health problems by developing analytical and critical-thinking skills
- Understand the legal and ethical principles and responsibilities of health care and community organizations to patients and the community
- Learn to assess needs, plan accordingly, implement programs, and then assess program outcomes
- Become a strong advocate for patient, community, and organizational issues
