Preceptor Handbook

Master of Science in Nursing Program
Specializations:
Family Nurse Practitioner
Psychiatric Mental Health Nurse Practitioner
Nursing Administration
Nursing Informatics

Post-Graduate APRN Certificate Program
Specializations:
Family Nurse Practitioner
Psychiatric Mental Health Nurse Practitioner

Preceptorship Team
3390 Harbor Blvd
Costa Mesa, CA 92626
MSNPreceptorship@nu.edu
Dear Preceptors,

Thank you very much for serving as preceptor and contributing to the education of National University’s MSN and Post Graduate APRN Nurse Practitioner students. We greatly appreciate the time and energy you spend with our students, and recognize that you make a significant difference in preparing outstanding advanced practice nurses. We prepared this Preceptor Handbook for you to use as a reference guide for your role, and the roles of the faculty member and student. It serves as the basis for a signed agreement between you, the Department of Nursing, and the student.

ENCLOSED IN THIS PACKET YOU WILL FIND:

- Program of Study Overview
- Preceptorship Placement Procedure
- Preceptor Evaluation & Honorarium Procedure
- Preceptor Required Documents
- Preceptor Evaluation of Student
- Role & Responsibilities - Preceptor, Faculty and Student
- Helpful tips for precepting students

For our records, we ask that you complete the Preceptor Required Documents and return these documents to us as soon as possible to initiate the Preceptor Agreement prior to precepting student.

Again, thank you for your vital contribution to the clinical education of our students and future Advanced Practice Nurses. You will find our contact information below. Please do not hesitate to contact us with any questions or concerns.

Kind regards,

National University

Overview of Program of Study
MSN/Post-Graduate
FNP Specialization

**MSN Core Courses – Applied to MSN Program only:**
- NSG 600 – Advanced Practice Nursing
- NSG 606 – Health Policy and Finance
- NSG 607 – EBP for Advanced Practice
- NSG 620 – Theory in Advanced Practice
- NSG 622 – QI and Project Management
- NSG 623 – Biomedical Statistics
- NSG680 – Diversity Issues in AP
- NSG 698 – FHNPCapstone

**Preparation Courses:**
- NSG 681 – Advanced Physical Assessment
- NSG 641 – Advanced Pharmacology I
- NSG 682 – Advanced Pathophysiology

- Only MSN-PMHNP and MSN-FNP students are required to take MSN core courses.
- Post Graduate FNP and Post Graduate PMHNP Certificate students can waive preparation courses if qualified.

**FNP Specialization courses:**
- FNP 683A – Primary Care of Adult & Aged
- FNP 684A – Primary Care of Women & Children
- FNP 685A – FNP Residency
- FNP 683B – Primary Care of Adult & Aged Practicum
- FNP 684B – Primary Care of Women & Children Practicum
- FNP 685B – FNP Residency Practicum

**FNP 683B – 12 week – 180 hours**
Application of theoretical knowledge in supervised clinical settings in the practice of caring for the adult and aged. The role of the family nurse practitioner in health promotion and disease prevention is emphasized. FNP683A and FNP683B must be taken concurrently and both completed satisfactorily to progress.
1. Demonstrate the content knowledge and psychomotor skills needed to conduct a thorough patient history and physical examination.
2. Differentiate abnormal from normal physical examination findings and cluster same into patterns of significant positive and negative data.
3. Delineate differential diagnosis lists upon collection of patient data, including the history, physical examination, and diagnostic tests.
4. Outline culturally-appropriate patient management plans incorporating lifestyle modification, pharmacotherapeutics, and referrals as indicated.
5. Describe therapeutic management plans for common acute and chronic illnesses of adults and the aged that are widely endorsed by professional organizations in America.
6. Utilize research methods and evolving information systems’ technologies in the delivery of primary health care.

**FNP 684B – 12 week – 180 hours**
This clinical course allows the opportunity to apply theoretical knowledge in supervised clinical settings in the practice of caring for women and children. The role of the Family Nurse Practitioner in health promotion and disease prevention is emphasized. NSG 684A and 684B must be taken concurrently and both completed satisfactorily to progress.
1. Apply knowledge and skills specific to the care of women and children within a family context when making clinical judgments.
2. Identify the role of the advanced practice nurse caring for women and children within a family context.
3. Integrate teaching/learning strategies in the delivery of care to support advanced practice nursing of women and children within the family.
4. Utilize advanced leadership and consultant principles in the delivery of primary obstetric, gynecologic, and pediatric care.
5. Apply professional standards of advanced practice nursing in caring for children and adolescents.

**FNP 685B – 12 week – 240 hours**
Concentrated residency experience in which the student will critically and accurately assess, plan intervene and evaluate nursing experiences related to the care of individuals, aggregates, and nursing systems. FNP 685A and FNP 685B must be taken concurrently and both completed satisfactorily to progress.
1. Formulate treatment modalities derived from current and emerging areas of knowledge for advanced nursing practice.
2. Evaluate research findings to support best practices in advanced practice nursing and health systems.
3. Select decision support systems to solve clinical problems for individuals, aggregates, and/or systems.
4. Develop advanced leadership skills to mobilize interdisciplinary teams to solve highly complex clinical problems.
5. Develop expertise to inform health policy and leadership in establishing clinical excellence and creating new models of health care delivery.
6. Assess the health outcomes of individuals, aggregates, and systems.
7. Synthesize knowledge of cultural diversity and global perspectives in delivering health care and in critiquing nursing systems.
8. Examine the utilization of tele-communication technologies and information systems in the delivery and documentation of PC services.
5. Use evidence-based research materials to evaluate outcomes and effectiveness of care.

---

**MSN Core Courses – Applied to MSN Program only:**
- NSG 600 – Advanced Practice Nursing
- NSG 606 – Health Policy and Finance
- NSG 607 – EBP for Advanced Practice
- NSG 620 – Theory in Advanced Practice
- NSG 622 – QI and Project Management
- NSG 623 – Biomedical Statistics
- NSG680 – Diversity Issues in APN
- NSG 697 – PMHNP Capstone

**Preparation Courses:**
- NSG 681 – Advanced Physical Assessment
- NSG 641 – Advanced Pharmacology I
- NSG 682 – Advanced Pathophysiology

- Only MSN-PMHNP and MSN-FNP students are required to take MSN core courses.
- Post Graduate FNP and Post Graduate PMHNP Certificate students can waive preparation courses if qualified.

**PMHNP Specialization courses:**
- MNP 694 – Adults/Aging Adults MH Care
- MNP 687 – Children/Adolescents MH Care
- MNP 688A – Introduction to Psychotherapy

- MNP 696A – Adults/Aging Adults Practicum
- MNP 696B – Children/Adolescents MH Practicum
- MNP 688B – Introduction to Psychotherapy Practicum

**MNP 696A – 12 week – 240 hours**
Facilitate practicum experience of the PMHNP student with adults/aging adults in mental health care settings. Accurately assess, plan, intervene, and evaluate the care of adults/aging adults with mental illness. Perform the advance practice role of manager, clinician, educator, researcher, and consultant in the provision of mental health services. Grading is S/U only.

1. Demonstrates an advanced level of nursing practice in conducting assessments, case formulation, differential diagnosis, arriving at diagnoses which leads to competent and effective treatment for adults/aging adults with mental disorders
2. Explain the utilization of advanced independent nursing interventions when managing individuals with stable and/or enduring behavioral health states
3. Formulate treatment plans with the interdisciplinary health care team in the management of clients with acute and enduring mental health problems
4. Illustrate professional development by initiating strategies for interdisciplinary team functioning confronting professional, ethical, legal and political issues
5. Use evidence-based research materials to evaluate outcomes and effectiveness of care

**MNP 696B – 12 week – 180 hours**
Facilitate Practicum experience of the PMHNP student with children/adolescents in mental health care settings. Accurately assess, plan, intervene, and evaluate the care of children/adolescents with developmental, behavioral or psychiatric disorder. Perform the advance practice role of manager, clinician, educator, researcher, and consultant in the provision of mental health services.

1. Demonstrates an advanced level of nursing practice in conducting assessments, case formulation, and differential diagnosis, arriving at diagnoses which leads to competent and effective treatment for children/adolescents behavioral health problems or mental illness
2. Evaluate relevant resources to assist children/adolescents with developmental disorder or mental illness
3. Implement evidence-based screening and management of common developmental disorder or mental illness of children/adolescents
4. Formulate treatment plans with the interdisciplinary health care team in the management of clients with acute and enduring mental health problems or developmental disorder
5. Use evidence-based research materials to evaluate outcomes and effectiveness of care

**MNP 688B – 12 week – 90 hours**
Learner applies theories and principles of psychotherapy learned in NSG688A. Assesses motivation and readiness for treatment. Applies various theories of behavior patterns, belief systems, therapeutic relationship strategies based on evidence to reduce emotional stress, facilitate cognitive and behavior change, and foster growth. NSG688A and NSG688B are taken concurrently. Grading is S/U only.

1. Illustrate learning and teaching principles in the design, implementation and evaluation of health education programs for groups and families in a variety of settings.
2. Integrate theory, evidence, clinical judgment, research, and interprofessional perspectives using translational processes to improve advanced behavioral health nursing practice and associated health outcomes for patient aggregates.
3. Use information and communication technologies, resources, and principles of learning to teach patients and others with behavioral health issues.
4. Create professional boundaries to preserve the integrity of the psychotherapeutic process.
5. Employ principles of self- efficacy empowerment and other self-management theories in promoting relationship
National University
College of Professional Studies – Department of Nursing
Overview of Program of Study - MSN

NI Specialization
NA Specialization

**MSN Core Courses:**
- NSG 600 – Advanced Practice Nursing
- NSG 606 – Health Policy and Finance
- NSG 607 – EBP for Advanced Practice
- NSG 620 – Theory in Advanced Practice
- NSG 622 – QI and Project Management
- NSG 623 – Biomedical Statistics

**NI Specialization courses:**
- HTM 552 – EHR Meaningful Use
- HTM 660 – System Management and Planning
- HTM 520 – Health Information Exchange
- HTM 680 – Health Informatics Case Study
- HTM 692 – Health Informatics Capstone

**NA Specialization courses:**
- HCA 600 – US Healthcare System
- HCA 620 – Health Organization Management
- HCA 624 – Healthcare Planning & Marketing
- HCA 670 – Healthcare Leadership
- HCA 692 – Healthcare Capstone

**HTM 692 – 8 week – 200 hours**
Two-month capstone project focused on a relevant problem in health informatics theory or practice. Planning and completion of either a data-based research project or other scholarship or creative activity. Grading is by H, S, or U only. Course is eligible for an "IP" grade.

**HCA 692 – 8 week – 200 hours**
Two-month capstone project focused on a relevant problem in healthcare administration theory or practice. Planning and completion of either a data-based research project or a scholarly and creative activity related to healthcare administration.
Step 1
Student identifies a qualified Preceptor and submits Preceptor Placement Request form to MSNPreceptorship@nu.

Step 2
Preceptor returns documents to student or MSNPreceptorship@nu.edu:
1. Complete Preceptor Data Form or CV/Resume
2. Copy or government issued ID
2. Complete and sign W-9 if prefers to receive honorarium

Step 3
Student and preceptor sign Preceptor Agreement electronically

Step 4
Student provides Preceptor Handbook, Course Syllabus, and plans for preceptored experience with Preceptor
The preceptor guides the student into the real world of advanced practice specialization and serves as a supportive coach, mentor, teacher, and role model allowing the student to try on new knowledge and skills, gain confidence in their application in the specialty setting and receive validation.

The Preceptor will:

- Preceptors for FNP students must have an advanced degree in nursing (master’s or doctoral degree), licensed and hold certification as a FNP, or be licensed to practice as a physician (MD or DO).
- Preceptors for PMHNP students must have an advanced degree in nursing (master’s or doctoral degree), licensed and hold certification as a PMHNP or physician licensed to practice in psychiatry (MD or DO). In addition, preceptors for MNP 688B Intro to Psychotherapy Practicum course can be a psychologist, Licensed Marriage Family Therapist (LMFT), Licensed Clinical Professional Counselor (LCPC) or a Licensed Clinical Social Worker (LCSW). These professionals must be licensed and work under supervisions of Board Certified PMHNPs or phycisian licensed to practice in psychiatry.
- Preceptors for NA & NI students must have an advanced degree in nursing (master’s or doctoral degree) and experienced in healthcare administration or a healthcare/nurse informatics field.

- Have at least 1-year experience in the field or specialty.
- Possess a thorough knowledge of the specific clinical or practicum site/agency.
- Have an interest in working with Master or Post-Graduate Certificate students.
- Provide constructive feedback and assistance to the students.
- Meet with faculty and the student at agreed upon times for feedback and evaluation.
- Be willing to devote their time to assist student meeting their specialty objectives.
- Must not be student’s relative, family member, significant other, personal friend, or direct supervisor.
Beginning & Throughout Rotation
Preceptor responds to email/phone call from faculty for introduction & frequent check-in of student's performance

Mid-rotation
Preceptor responds to email/phone call from faculty for Midterm Evaluation of Student Performance

End of Rotation
Preceptor responds to email/phone call from faculty for Final Evaluation of Student Performance

4-6 Weeks After Completion of Rotation
Preceptor receives honorarium issued to individual/Business as indicated on Preceptor Agreement and W-9

Important Tips for Honorarium:
If Business box on the Preceptor Agreement is checked:
honorarium will be issued to Site Business Name and mailed to Site Address. W-9 should have Site Name for entity, Site Address for Address, and Site EIN under the PART 1 (TIN) section.

Individual box on the Preceptor Agreement is checked:
honorarium will be issued to Individual Business or Individual. If SSN is provide and "Individual/Sole Proprietor" box is checked on W-9, check will be issued to Individual Name. If EIN is provided on W-9, check will be issued to Business Name listed on W-9.

If the preceptor works at their own business and that business is listed as the “Site” then either Individual or Business can be checked on Preceptor Agreement and honorarium will be issued according to how the W-9 is completed.

Preceptor Required Documents

W-9

Request for Taxpayer Identification Number and Certification

Give Form to the requester. Do not send to the IRS.

1. Name (as shown on your income tax return). Name is required on this line; do not leave this line blank.

2. Business name/disregarded entity name, if different from above.

3. Check appropriate box for federal tax classification of the person whose name is entered on line 1. Check only one of the following seven boxes.
   - Individual/sole proprietor or single-member LLC
   - C Corporation
   - S Corporation
   - Partnership
   - Trust/estate
   - Limited liability company. Enter the tax classification (C = C corporation, S = S corporation, P = Partnership)
   - Other (see instructions)

4. Exemptions (codes apply only to certain entities, not individuals; see instructions on page 3).

   Exempt payee code (if any)

   Exemption from FATCA reporting code (if any)

   (Applies to accounts maintained outside the U.S.)

5. Address (number, street, and apt or suite no). See instructions.

6. City, state, and ZIP code

7. List account number(s) here (optional).

Part I

Taxpayer Identification Number (TIN)

Enter your TIN in the appropriate box. The TIN provided must match the name given on line 1 to avoid backup withholding. For individuals, this is generally your social security number (SSN). However, for a resident alien, sole proprietor, or disregarded entity, see the instructions for Part I, later. For other entities, it is your employer identification number (EIN). If you do not have a number, see How to get a TIN, later.

Note: If the account is in more than one name, see the instructions for line 1. Also see What Name and Number To Give the Requester for guidelines on whose number to enter.

Part II

Certification

Under penalties of perjury, I certify that:

1. The number shown on this form is my correct taxpayer identification number (or I am waiting for a number to be issued to me); and
2. I am not subject to backup withholding because: (a) I am exempt from backup withholding, or (b) I have been notified by the Internal Revenue Service (IRS) that I am subject to backup withholding as a result of a failure to report all interest or dividends, or (c) the IRS has notified me that I am no longer subject to backup withholding; and
3. I am a U.S. citizen or other U.S. person (defined below); and
4. The FATCA code(s) entered on this form (if any) indicating that I am exempt from FATCA reporting is correct.

Certification instructions. You must cross out item 2 above if you have been notified by the IRS that you are currently subject to backup withholding because you have failed to report all interest and dividends on your tax return. For real estate transactions, item 2 does not apply. For mortgage interest paid, acquisition or abandonment of secured property, cancellation of debt, contributions to an individual retirement arrangement (IRA), and generally, payments other than interest and dividends, you are not required to sign the certification, but you must provide your correct TIN. See the instructions for Part II, later.

Signature of U.S. person

Date

General Instructions

Section references are to the Internal Revenue Code unless otherwise noted.

Future developments. For the latest information about developments related to Form W-9 and its instructions, such as legislation enacted after they were published, go to www.irs.gov/FormW9.

Purpose of Form

An individual or entity (Form W-9 requester) who is required to file an information return with the IRS must obtain your correct taxpayer identification number (TIN) which may be your social security number (SSN), individual taxpayer identification number (ITIN), adoption taxpayer identification number (ATIN), or employer identification number (EIN), to report on an information return the amount paid to you, or other amount reportable on an information return. Examples of information returns include, but are not limited to, the following.

• Form 1099-DIV (dividends, including those from stocks or mutual funds)
• Form 1099-MISC (various types of income, prizes, awards, or gross proceeds)
• Form 1099-B (stock or mutual fund sales and certain other transactions by brokers)
• Form 1099-S (proceeds from real estate transactions)
• Form 1099-K (merchant card and third party network transactions)
• Form 1098 (home mortgage interest), 1098-E (student loan interest), 1098-T (tuition)
• Form 1099-C (canceled debt)
• Form 1099-A (acquisition or abandonment of secured property)

Use Form W-9 only if you are a U.S. person (including a resident alien), to provide your correct TIN.

If you do not return Form W-9 to the requester with a TIN, you might be subject to backup withholding. See What is backup withholding, later.

FNP/PMHNP Specialization

1. Course:
2. Number of Hours Completed:
3. Instruction: Please indicate the listed behaviors that you observed from student:

Note:
For FNP 683B/MNP 696A: Students must achieve a minimum of “Minimal guidance needed” on all applicable objectives in the final clinical evaluation prepared by the faculty in order to pass the course.

For FNP 684B/MNP 696B: Students must achieve a minimum of “Fairly consistent in meeting competencies” on all applicable objectives in the final clinical evaluation prepared by the faculty in order to pass the course.

For FNP 685B/MNP 688B: Students must achieve a minimum of “Consistently & self-directed in meeting competencies” on all applicable objectives in the final clinical evaluation prepared by the faculty in order to pass the course.

Roles & Responsibilities

Preceptor Responsibilities and Expectations

Preceptors serve as mentors, coaches, and role models for Nursing Administration, Nursing Informatics and Nurse Practitioner students. Preceptors are provided with the evaluation tools before the start of the practicum rotation. Specific preceptor responsibilities and expectations include:

1. Maintain a current and unencumbered license to practice as advanced practice registered nurse (APRN) or medical doctor/psychiatrist (MD). Maintain certification in a population focused area (APRN) and/or administrative or informatics specialty if applicable.
2. Provide a learning environment, facility and/or space appropriate to facilitate student learning; facilitate student experiences and interactions with a variety of clients, and interprofessional team members, to meet the course objectives; complete the student orientation to the facility before or during the first practicum week.
3. Identify and discuss what the student learning needs to meet the course and/or practicum objectives. Conduct a review of the student learning objectives to ensure the objectives will be met in the clinical practice, administrative, or informatics setting.
4. Inform the student, faculty and Academic Program Director with any problem or concern that might prevent student from accomplishing the negotiated and required objectives.
5. Identify opportunities for improvement early in the practicum, thereby providing time to achieve objectives by the time the practicum rotation is completed.
6. Provides continuous and constructive feedback to both the student and the faculty member verbally and/or in writing whenever practical.
7. Use appropriate teaching methods to help the student meet the learning objectives.
8. Provide opportunities for the student to practice newly learned skills that build confidence.
9. Demonstrate and support the critical analysis of guidelines/standards of care and determines how they should be implemented or adapted to unique clinical, administrative, or informatics situations.
10. Be available to meet with faculty as necessary to discuss student’s performances.
11. Complete student’s midterm and final clinical evaluation and review with faculty. Provide student feedbacks including strengths, limitations, and areas to strengthen.
12. Verify the student’s clinical hours on the evaluation form.
13. Complete Preceptor Information Form or supply a Curriculum Vitae prior to the student beginning the clinical experience.
Roles & Responsibilities

Faculty Responsibilities and Expectations

1. The Faculty is responsible for ensuring the student’s learning experiences and quality of the practicum sites by making webinar Zoom/email/phone calls periodically as needed (initial, midterm, and/or final) to discuss practicum requirements, evaluation forms that need to be completed by all (preceptor, student, and faculty) and the shared expectations and goals/outcomes with all concerned (preceptor/site coordinator, student, and faculty).

2. The same type of communication is made at the end of the practicum for evaluation purposes and to obtain feedback to improve the practicum and preceptorship experience. Additional communications may be made at Midterm and during the practicum experience where the preceptor, faculty and the student have the opportunity to discuss progress being made, and to discuss/negotiate any additional experiences or changes in the experience to enhance, strengthen and provide the learning activities needed by the student to develop into an advanced practice role.

3. The Faculty serves as an ongoing resource for both the preceptors/site coordinator and student to facilitate problem-solving and/or additional negotiation if needed to modify the practicum experience.

4. The Faculty is responsible for maintaining communication with the student and preceptor during the practicum and ensures that all final evaluation forms are completed.

5. The Faculty ensures that the preceptor and the student receive an electronic copy of the preceptor handbook, and solicits feedback from them on any suggested revisions that need to be made or clarified.
National University
College of Professional Studies – Department of Nursing
Roles and Responsibilities

Student Responsibilities and Expectations

1. Identify course learning objectives and the focus of clinical, administrative, and/or informatics learning activities.
2. Assist preceptor to complete required documents associated with the practicum experience.
3. Generate a clinical or practicum schedule consistent with their preceptor’s time constraints and schedule.
4. Negotiate a procedure to contact their preceptor in case of absence before the clinical or practicum time begins.
5. Collect and enter patient encounter data and practicum hours weekly as specified.
6. Demonstrate increasing competencies and progressive independence in clinical knowledge and skills.
7. Take on the role of nurse practitioner or Advanced Practice Nurse under the supervision of the preceptor. Incorporate evidence-based practice guidelines and follow site policies.
8. Complete clinical preceptor and clinical site evaluations at the end of the practicum rotation.
9. Provide a courtesy copy of emailed correspondence on pertinent issues that involve the Department of Nursing.
10. Notify the preceptor prior to the start of the practicum day if they become sick or have an emergency.
11. Dress appropriately and behave in a professional manner at all times. Adhere to site dress code when specified.
12. Wear National University identification badges and lab coat for proper identification if interacting with patients if applicable.
13. Take the initiative and actively participate in your own learning process.
14. Negotiate a written schedule with the preceptor and/or faculty member to make up time for absences and share with the faculty.
15. Develop and send a personal thank you letter to the preceptor at the end of the practicum.
Avoid using the same teaching-learning approach for all students.

Students learn in many ways. Some are visual, oral or written learners, some concrete and some abstract, and others are multidimensional. Recognize that your style of learning may be very different from the student’s.

Spend some time to know your student.

Find out your student’s talents, prior experiences, and learning needs. This information helps you know how to best guide the student. Knowing the student’s current knowledge base and readiness to learn helps both of you know how much work you have ahead of you.

Create a positive and safe learning environment.

Students are more likely to take risks in a safe environment. Admitting what one doesn’t know or making a wrong decision is an uncomfortable feeling for anyone. Allow students the opportunity to learn from their mistakes.

Give frequent feedback along the way, not just at the end.

Students need to have information about their behavior and performance as they are learning. Focus on the performance, not the person. Involve the learner in the self-evaluation process.

Share your passion.

If the teacher has passion for the works he/she does, the student is likely to emulate it. You are teaching by example at all time. Students learn as much from observing your behavior and communication of caring as they do from listening.

Repeat the important points.

State the most important points more than once and in various ways. The first time something is stated it is heard and will be recognized, but it takes repetition and application for learning to occur.

Ask questions.

Learning requires exploring the unknown and considering ideas from a different
perspective. The preceptor guides the student to seek a deeper understanding. Ask students questions that encourage them to demonstrate the thinking process that led to the right answer.

- **Talk through your decision-making process.** Share the process you go through in making decisions. Problem-solving skills can be learned. Point out the factors in the clinical situation that guided your thinking.

- **You don’t have to be perfect.** Acknowledging that you don’t know something shows you are still learning. The student expects you to know the answers to most questions, but does not expect you to be perfect.

- **Sometimes “less is more.”** Making one or two teaching points in a case may be better than trying to have the learner focus in on all possible learning points.

- **Break larger tasks into step-by-step skills.** Give feedback on the performance of each step of the process. Give rationale during demonstration. Allow active practice and repetition.

### PROGRESSION OF A NURSE PRACTITIONER STUDENT

**Benchmarks for Practicum rotation with NP Students in a practicum rotation of 12 weeks in length.**

- **First 10-20 hours:** Observation of preceptor and patient interactions:
  - Preceptor style and patient interaction.
  - Preceptor method of evaluating patient information (history & physical).
  - Discuss differential diagnoses and treatment.
  - Observe patient flow in the office.
  - Observe charting methods.

- **Next 10-20 hours:** Preceptor observes Student gathering patient information:
  - Student offers list of differential diagnoses and proposes treatment plan.
  - Preceptor refines plan and offers rationale. Student documents in patient chart if policy permitting.

- **Remainder of clinical time:**
  - Student will independently (unobserved) perform history and physical exams, if policy permitting and per preceptor agreement
  - Student will reports findings and proposed treatment plan. Preceptor and student finalizes visit with patient
  - At the end of the session, recap the student actions and address any areas of concern.
Thank you for serving as Preceptor to National University student. We appreciate your commitment to provide a meaningful practice-based learning experience to our students. We hope that you find mentoring students a rewarding experience, both personally and professionally.
