Also, please describe or provide a link to program admissions policies that allow students to enter with credit for prior graduate work, and the expected implications for time to completion. Please indicate NA if not applicable:

Students requesting course transfer credit must have attained a grade of "credit" or a letter grade of B or higher from an institution that is regionally accredited or has other recognized accreditation. When transfer credit is granted for a course completed at another institution, regardless of whether it was offered on the quarter or semester system, the maximum number of units transferred will equate to the number of units given for completing the corresponding doctoral course at JFK School of Psychology. Transfer credit will not be included as part of the cumulative University PsyD GPA. Courses eligible for transfer credit must have been taken within the last eight years. The maximum number of approved credits that may be transferred into the PsyD program from master level courses is 18. The maximum number of approved credit that may be transferred into the PsyD program from doctorate level courses is 30. If a student is transferring credits from both master level and doctorate level courses, the total transfer credits cannot exceed 30 units. Although transfer credits may reduce the cost of the program, it will not reduce the overall length of the program, due to the three years of the Integrated Professional Seminar (IPS I, II & III). The number of transferred credits permitted is at the discretion of the PsyD program. (<https://nu.curriqnet.com/catalog/alias/catalog84/iq/142/1729/d51>)
