In 2026, the Program initiated a multi-phase strategy to address gaps in licensure data. The results were significant increases in the licensure rate for each cohort. These increases are attributed to more complete data sets rather than a sudden surge in new licensees

FT=Full-time

PT=Part-time

IP=In Process: Students from the cohort listed have yet to graduate from the cohort year listed.

Programs are only required to provide data on the past 10 years/cohort or since the program was initially accredited, whichever is shorter.

* Graduation Rate is the program's Advertised Length of Completion which is how long the program is designed to complete as written.

** Job Placement Rate is the percentage of graduates from the cohort year that are employed utilizing skills learned in the COAMFTE accredited program.

*** Licensure rate is the percentage of graduates from the cohort year that have achieved ANY level of MFT licensure. For Master's programs only, COAMFTE has established a benchmark of 70% licensure rate for each cohort.
